3. Purpose of Regulations
4. Definitions

PART IISECURITY AUTHORITY AND NATIONAL CIVIL AVIATION
SECURITY PROGRAMME

5. Appropriate authority
6. Co-ordinator for National Civil Aviation Security
7. Responsibilities of The Eastern Caribbean Civil Aviation Authority
8. Aviation Security Inspectorate
9. National Civil Aviation Security Committee
10. National Civil Aviation Security Programme
11. National Civil Aviation Security Quality Control Programme
12. National Civil Aviation Security Training Programme

PART III

SECURITY PROGRAMMES

13. Security Programmes
14. Additional requirements for applications
15. Approval of a proposed security programme
16. Contents of an Aerodrome Operator Security Programme
17. Development of an Aerodrome Operator Security Programme
18. Approval of an Aerodrome Operator Security Programme
19. Development of security measures for aircraft operators
20. Contents of Aircraft Operator Security Programme
21. Approval and implementation of Aircraft Operator Security Programme
22. Contents of a Regulated Agent Security Programme
23. Approval of a Regulated Agent Security Programme

24. Contents of a Catering Operator Security Programme
25. Acceptance of Catering Operator Security Programme
26. Air Navigation Service Providers Security programme.
27. Contents of an Air Navigation Service Provider Security Programme
28. Changed conditions affecting security
29. Amendment of an approved security programme
30. Amendment of an approved security programme by the authority

PART IV

AERODROME SECURITY

31. General responsibilities of an aerodrome operator
32. Aerodrome Security Committee
33. Aerodrome operator to provide aviation security and screening officers
34. Employer responsibility for aviation security officers and aviation screening officers
35. Use of members of the Police Force
36. Requirement to screen persons, carry-on baggage, goods and vehicles
37. Procedure on refusal of person to submit to screening
38. Treatment of unaccompanied baggage
39. Security measures of an aerodrome tenant
40. False statements, entries or unauthorised reproduction
41. Access control system
42. Aerodrome operators to establish and use aerodrome identification media system
43. Landside security & security of operations area
44. Aerodrome operator to keep records
45. Evidence of compliance
46. Designation of Aerodrome Security Manager
47. Aerodrome operator to keep map of aerodrome
48. Aerodrome operator to provide authority and the co-ordinator with information
49. Persons authorised to carry weapons into restricted areas

PART V

AIRCRAFT OPERATOR SECURITY

50. Aircraft Operator Security Programme
51. Pre-flight security check or search
52. Screening of passengers and baggage.

53. Refusal to submit to screening
54. Separation of passengers
55. Items on board aircraft at transit stops
56. Protection of hold baggage
57. Reconciliation of hold baggage
58. Cargo, mail and other goods
59. Procedures for the carriage of passengers in the custody of escort officers
60. In-Flight Security Officers
61. Carriage of weapons
62. Ground Security Co-Ordinator
63. Training
64. Authority or Co-ordinator may request information

PART VI

REGULATED AGENT SECURITY

65. Responsibilities of a regulated agent
66. Responsibilities of the aircraft operator receiving goods from a regulated agent
67. Screening of goods offered for transport by regulated agent

PART VII

CATERING OPERATOR SECURITY

68. Responsibilities of a catering operator
69. Responsibilities of the aircraft operator receiving goods from a catering operator
70. Screening of catering supplies and stores

PART VIII

SCREENING STANDARDS, EQUIPMENT AND SECURITY CONTROLS

71. Aviation security instructor
72. Certification of Aviation Security Officer or Screening Officer
73. Training for Aviation Security Officer and Security Screener
74. Approved training programme
75. Qualifications of screening personnel
76. Internal quality control of screening functions
77. Security controls other than screening
78. Use of Screening Equipment

- 79. Equipment, research and development
- 80. Prohibited items list
- 81. Exemption from screening
- 82. Screening of diplomats and their baggage

PART IX

MANAGEMENT OF RESPONSE TO ACTS OF UNLAWFUL INTERFERENCE

- 83. Aircraft operator contingency plans
- 84. Aerodrome operator contingency plans
- 85. Approval of contingency plans
- 86. Testing of contingency plans
- 87. Response to security incidents during screening
- 88. Mandatory reporting of security incidents

PART X

MISCELLANEOUS

- 89. Security Risk Assessment
- 90. Domestic operations
- 91. Security directives
- 92. Sensitive aviation security information
- 93. Confidential reporting of security information
- 94. General security compliance
- 95. Cyber security

PART XI

FACILITATION

- 96. Entering and departing aircraft
- 97. Travel document coordination
- 98. Inspection of travel documents
- 99. Entry procedures and responsibilities
- 100. Advance passenger information
- 101. Identification and entry of crew and other aircraft operator personnel
- 102. Entry and departure of cargo
- 103. Inadmissible persons
- 104. Deportees

- 105. National Air Transport Facilitation Programme
- 106. Composition of the National Air Transport Facilitation Committee
- 107. Functions of the National Air Transport Facilitation Committee

PART XII

OFFENCES AND PENALTIES

- 108. Offences committed at aerodromes
- 109. Offences committed on board aircraft
- 110. Offence of non-compliance with Regulations
- 111. Offences relating to documents and records
- 112. Repeals

SCHEDULE II – NATIONAL CIVIL AVIATION SECURITY QUALITY
CONTROL PROGRAMME (NCASQCP) MODEL

SCHEDULE III – NATIONAL CIVIL AVIATION SECURITY TRAINING
PROGRAMME (NCASTP) MODEL

GRENADA

STATUTORY RULES AND ORDERS NO. 9 OF 2026

IN EXERCISE OF THE POWERS CONFERRED UNDER SECTION 49 (1) OF THE CIVIL AVIATION ACT CAP. 54, THE DIRECTOR GENERAL MAKES THE FOLLOWING REGULATIONS—

(Gazetted 12th June, 2026).

PART I

PRELIMINARY

1. Short title. These Regulations may be cited as the

CIVIL AVIATION (SECURITY) REGULATIONS, 2026.

2. Application of Regulations. These Regulations shall apply to all civil aviation security matters in the State of Grenada.

3. Purpose of Regulations. The purpose of these Regulations is—

- (a) to safeguard and enhance aviation security against acts of violence or unlawful interference by providing for the protection of—
 - (i) aircraft used for civil aviation, and persons and property on board such aircraft;
 - (ii) airports, and persons and property at airports;
 - (iii) air navigation installations which are not part of airports;
- (b) to regulate the conduct of persons at airports, and persons on board aircraft for the purposes of civil aviation security;
- (c) to establish a regulatory framework to safeguard against unlawful interference with aviation;
- (d) to establish minimum security requirements for civil aviation in Grenada by imposing obligations on persons engaged in civil-aviation-related activities, including obligations on certain aviation industry participants to develop, and comply with, aviation security programmes; and
- (e) to meet Grenada's obligations under the Chicago Convention.

4. Definitions. For the purpose of these Regulations, the following definitions shall apply—

“Act” means the Civil Aviation Act, Chapter 54A;

“act of unlawful interference” means an act or attempted act such as to jeopardise the safety of civil aviation and air transport, including but not limited to—

- (a) unlawful seizure of an aircraft in flight or on the ground;
- (b) destruction of an aircraft in service;
- (c) hostage-taking on board an aircraft or on an aerodrome;
- (d) forcible intrusion on board an aircraft, at an airport or on the premises of an aeronautical facility;
- (e) introduction on board an aircraft or at an airport of a weapon or hazardous device or material intended for criminal purposes;
- (f) use of an aircraft in service for the purpose of causing death, serious bodily injury, or serious damage to property or the environment;
- (g) communication of false information such as to jeopardise the safety of an aircraft in flight or on the ground, of passengers, crew, ground personnel or the general public, at an airport or on the premises of a civil aviation facility;

“aerial work” means an aircraft operation in which an aircraft is used for specialised services such as agriculture, construction, photography, surveying, observation and patrol, search and rescue, aerial advertisement;

“aerodrome” means any area of land, water or other supporting surface used, designed, prepared, equipped or set apart for use or designated either in whole or in part for the arrival, departure and surface movement of aircraft and includes any buildings, installations and equipment situated thereon or associated therewith;

“aerodrome operator” means a person who operates an aerodrome in Grenada, holding an aerodrome certificate or other authorisation issued pursuant to the Act and regularly serving scheduled, non-scheduled passenger operations, or cargo operations;

- “Aerodrome Operator Security Programme” means an Aerodrome Operator Security Programme” established pursuant to regulation 13 (1);
- “aerodrome tenant” means any enterprise that is resident at an aerodrome;
- “aeronautical facility” means any facility associated with air navigation;
- “Agreement” means the Agreement establishing the Eastern Caribbean Civil Aviation Authority made on 21st day of October 2003, the text of which is set out in the Eastern Caribbean Civil Aviation Authority Agreement Act, Chapter 85A;
- “air operations area” means a portion of an aerodrome designed and used for landing, take-off or surface manoeuvring of aircraft;
- “aircraft” means any machine that is capable of deriving support in the atmosphere from reactions of the air, other than a machine designed to derive support in the atmosphere from reactions against the earth’s surface (of air expelled from the machine, and includes a rocket or such machine to travel into outer space);
- “aircraft operator” means a person that operates an aircraft in commercial air transport service;
- “Aircraft Operator Security Programme” means an Aircraft Operator Security Programme established pursuant to regulation 13 (2);
- “Aircraft security check” means an inspection of the interior of an aircraft to which passengers may have had access and an inspection of the hold for the purposes of discovering suspicious objects, weapons, explosives or other dangerous devices, articles and substances;
- “Aircraft security search” means a thorough inspection of the interior and exterior of the aircraft for the purpose of discovering suspicious objects, weapons, explosives or other dangerous devices, articles or substances;
- “airport” means any area in a participating State which is open for commercial aircraft operations;
- “airside” means the movement area of an airport, adjacent terrain and buildings or portions thereof, access to which is controlled;

-
- “appropriate authority for aviation security” means the authority designated within the administration to be responsible for the development, implementation and maintenance of Grenada’s national civil aviation security programme;
- “Authority” means the Eastern Caribbean Civil Aviation Authority established under Article 3 of the Agreement;
- “authorised search” means a search carried out on persons or goods destined to or within a restricted area of an aerodrome, or onboard an aircraft, by a designated security officer in such manner and under such circumstances as may be prescribed by existing regulations or by regulations made under the authority of the Act;
- “aviation security” means a combination of measures and human and material resources intended to safeguard international civil aviation against acts of unlawful interference;
- “aviation security officer” means—
- (a) a person who is trained in accordance with the security training requirements of the National Civil Aviation Security Training Programme, and who has been appointed as an aviation security officer by an aerodrome operator, aircraft operator or aerodrome tenant; or
 - (b) any member of the Police Force or officer of the Customs and Excise Department, when assigned aerodrome security duties;
- “aviation screening officer” means a person who by virtue of his or her training is employed by the aerodrome operator or aircraft operator to carry out aviation security screening duties;
- “background check” means a check of a person’s identity and previous experience, including where legally permissible, any criminal history and any other security related information relevant as part of the assessment of a person’s suitability, to access sensitive aviation security information, implement security controls and/or for unescorted access to a security restricted area;
- “baggage” means personal property of passengers or crew carried on an aircraft by agreement with the aircraft operator;

-
- “cargo” means any property carried on an aircraft other than mail, stores and accompanied or mishandled baggage;
- “carry-on baggage” means luggage and personal belongings to which a person will have access while onboard an aircraft;
- “catering supplies” means food, beverages, other dry stores and associated equipment used onboard an aircraft;
- “checked baggage” or “hold baggage” means luggage and personal belongings accepted for transportation by an aircraft operator and to which a person will not have access while onboard an aircraft;
- “Chicago Convention” means the International Civil Aviation Convention signed at Chicago on 7th December 1944 and the protocols amending the Convention;
- “Co-ordinator” means the person designated to be the Co-ordinator for National Civil Aviation Security pursuant to regulation 6 (1);
- “commercial air transport” means an aircraft operation involving the transport of passengers, cargo or mail for remuneration or hire;
- “crew member” means a person assigned by an operator to duty on an aircraft during a flight duty period;
- “dangerous goods” means articles or substances which are capable of posing a risk to health, safety, property or the environment and which are shown in the list of dangerous goods which are classified according to those Technical Instructions, document 9284 published by ICAO;
- “diplomatic bag” means a properly documented sealed bag, briefcase, envelope or other container used to transmit official correspondence, documents, publications and other articles for official use by a state and its diplomatic missions;
- “Director-General” means the Director-General of Civil Aviation appointed under Article 10 of the Agreement;
- “ETD” means Explosive Trace Detection;
- “Eastern Caribbean Civil Aviation Authority” means the Eastern Caribbean Civil Aviation Authority established under Article 3 of the Agreement;

-
- “escort officer” means a person authorised by a State who is trained to accompany persons being removed from that State’s territory;
- “exclusive area agreement” means a written agreement between an airport operator and an aircraft operator in which the aircraft operator undertakes to exercise exclusive security responsibility under a security programme for part of an air operations area;
- “Explosive Detection System” or “EDS” means a technology system or combination of different technologies which has the ability to detect, and so to indicate by means of an alarm, explosive material contained in baggage or other articles, irrespective of the material from which the bag is made;
- “explosive substance” means a solid or liquid substance (or a mixture of substances) which is in itself capable, by chemical reaction, of producing gas at such a temperature and pressure and at such a speed as to cause damage to the surroundings—
- (a) including pyrotechnic substances even when they do not evolve gases; and
 - (b) excluding a substance that is not itself an explosive, but that can form an explosive atmosphere of gas, vapour or dust is not included;
- “facilitation” means the efficient management of the necessary control process, with the objective of expediting the clearance of persons or goods and preventing unnecessary operational delays;
- “firearm” has the meaning given to it in the Firearms Act, Chapter 105;
- “foreign aircraft operator” means a person whose air operator certificate is issued and controlled by a civil aviation authority in a State other than Grenada;
- “general aviation operation” means any aircraft operation other than a commercial air transport operation or an aerial work operation;
- “goods” means personal belongings, baggage, cargo, mail, article, thing or conveyance that may be taken or placed on board an aircraft or taken into a restricted area;

- “high-risk flight” means is a flight assessed as being subject to a higher than normal threat of unlawful interference requiring enhanced security measures;
- “hire” means any payment, consideration, gratuity or benefit, directly or indirectly charged, demanded, received or collected by any person for the use of an aircraft – either scheduled or non-scheduled;
- “ICAO” means the International Civil Aviation Organisation;
- “in-flight security officer” means a person who is authorised by the government of the State of the Operator and the government of the State of Registration to be deployed on an aircraft with the purpose of protecting that aircraft and its occupants against acts of unlawful interference, and excludes persons employed to provide exclusive personal protection for one or more specific people travelling on the aircraft, such as personal bodyguards;
- “incendiary device” means an object, other than a match or pocket lighter, that is fabricated with combustible materials and when ignited may cause fire damage to property or inflict burn injuries on individuals;
- “known consignor” means a consignor who originates cargo or mail for its own account and whose procedures meet common security rules and standards sufficient to allow the carriage of cargo or mail on any aircraft;
- “landside” means those parts of an airport, adjacent terrain and buildings or portions thereof that are not airside, as identified by States and relevant entities in their security programmes;
- “mail” means all postal items tendered by and intended for delivery to designated postal operators to operate the postal service in accordance with the Universal Postal Union Acts;
- “mishandled baggage” means baggage involuntarily or inadvertently separated from passengers or crew;
- “National Civil Aviation Security Programme” means the National Civil Aviation Security Programme established pursuant to regulation 10 (1);
- “national programme” means the National Civil Aviation Security Programme, National Civil Aviation Security Training Programme, National Civil Aviation Security Quality Control Programme, National Air Transport Facilitation Programme, where applicable;

-
- “notice to captain” or “NOTOC” means a written notice or a verbal notice which is confirmed in writing to the pilot-in-command, providing information on any passenger, escort officer, in-flight security officer, firearm, or, other person or thing embarked or to be embarked aboard the aircraft under his or her command, which could present a safety risk;
- “participating State” means a State which is party to the Agreement Establishing the Eastern Caribbean Civil Aviation Authority;
- “person” means an individual, corporation, company, association, firm, partnership, society, joint-stock company and includes a trustee, receiver, assignee, successor or similar representative of any of them;
- “pilot-in-command” means the pilot designated by the operator, or in the case of general aviation, the owner, as being in command and charged with the safe conduct of a flight;
- “Police Force” means the Royal Grenada Police Force;
- “prohibited item” means, in the context of aviation security, an article, device or substance which may be used to commit an act of unlawful interference against civil aviation or which may endanger the safety of the aircraft and its occupants, or installations, or the public;
- “regulated agent” means an agent, freight forwarder or any other entity who conducts business with an aircraft operator and provides security controls that are accepted or authorised by the Authority in respect of cargo, courier and express parcels or mail;
- “sabotage” means an act or omission, intended to cause malicious or wanton destruction of property, endangering or resulting in unlawful interference with civil aviation and its facilities;
- “scheduled passenger operations” means the provision of a commercial air transport service for passengers from identified air terminals at a set time announced by timetable or schedule published in a newspaper, magazine or other advertising medium;
- “screening” means the application of technical or other means which are intended to identify and/or detect weapons, explosives or other dangerous devices, articles or substances which may be used to commit an act of unlawful interference;

-
- “search” means a search carried out under the Act for the purpose of aviation security in such a manner and such circumstances as may be prescribed by regulations;
- “security” means safeguarding civil aviation against acts of unlawful interference. This objective is achieved by a combination of measures and human and material resources;
- “security audit” means an in-depth compliance examination of all aspects of the implementation of the National Civil Aviation Security Programme;
- “security equipment” means devices of a specialised nature for use, individually or as part of a system, in the prevention or detection of acts of unlawful interference with civil aviation and its facilities;
- “security incident” means a designation given to a security occurrence which affects or could affect the safety of passengers, crew, ground personnel and the general public, as designated by a security official or manager to a reported security occurrence based on an analysis of the occurrence and a determination that additional action is required. A security incident may also result in an act of unlawful interference;
- “security inspection” means an announced or unannounced examination of the effectiveness of the implementation of relevant national civil aviation security programme requirements;
- “security programme” means written measures adopted by an aerodrome operator, aircraft operator, catering operator, regulated agent and air navigation service providers, to safeguard its civil aviation against acts of unlawful interference;
- “security occurrence” means any security-related event that may result in a reduced security outcome, may increase the operational risks or endanger the safety of passengers, crew, ground personnel and the general public, or is a potential compliance breach, and includes the identification or observation of a vulnerability in the protection of civil aviation against acts of unlawful interference;
- “security restricted area” means an area of the airside of an airport that is identified as priority risk areas where, in addition to access control, other security controls are applied, ordinarily including inter alia, all commercial aviation passenger departure areas between the screening

checkpoint and the aircraft, the ramp, baggage make-up areas, including those where aircraft are being brought into service and screened baggage and cargo are present, cargo sheds, mail centres, airside catering and aircraft cleaning premises;

“security screening checkpoint” means all points from which access to restricted areas may be gained;

“security sensitive information” means information related to civil aviation security the disclosure of which would—

- (a) result in an unwarranted invasion of personal privacy;
- (b) reveal a trade secret or privileged or confidential commercial or financial information; or
- (c) be detrimental to the security of civil aviation;

“security test” means a covert or overt trial of an aviation security measure which simulates an attempt to commit an unlawful act;

“Sensitive aviation security information” means information that, if accessed by or disclosed to unauthorised persons, could create or be used to exploit a vulnerability or facilitate an act of unlawful interference against civil aviation;

“sterile area” means the area between any passenger inspection or screening checkpoint and aircraft into which access is strictly controlled;

“Technical Instructions” means the International Civil Aviation Organization Instructions for the transport of Dangerous Goods by air;

“transfer passenger” means a passenger making direct connection between two different flights;

“transit passenger” means a passenger departing from an airport on the same flight as that on which they arrived;

“unaccompanied baggage” means baggage which is transported as cargo and may or may not be carried on the same aircraft with the person to whom it belongs;

“unidentified baggage” means baggage at an airport, with or without a baggage tag, which is not picked up by or identified with a passenger;

“weapon” means anything designed, used or capable of inflicting bodily harm or death, and includes a firearm.

PART II

SECURITY AUTHORITY AND NATIONAL CIVIL AVIATION SECURITY PROGRAMME

5. Appropriate authority. The Minister shall be the appropriate authority responsible for the development, maintenance and implementation of the National Civil Aviation Security Programme and shall be responsible, *inter alia*, for—

- (a) defining and allocating tasks and coordinating activities between the departments, agencies and other organisations in Grenada, aerodrome and aircraft operators, and other entities concerned with or responsible for the implementation of various aspects of the National Civil Aviation Security Programme;
- (b) the implementation of the National Civil Aviation Security Programme by the Government agencies and bodies to which responsibilities have been assigned by the National Civil Aviation Security Programme;
- (c) liaising with the National Civil Aviation Security Committee on all matters of civil aviation security and taking adequate measures to respond to different levels of threats;
- (d) ensuring that the aerodromes have the supporting resources and facilities required for each aerodrome serving civil aviation;
- (e) establishing and implementing policies and procedures to adjust relevant elements of the National Civil Aviation Security Programme, based upon a security risk assessment carried out by the relevant national authorities;
- (f) ensuring that the level and nature of threats to civil aviation within Grenada is kept under constant review;
- (g) establishing and implementing procedures to exchange information concerning National Civil Aviation Programmes, training programmes

and quality control programmes and other security information with other States in ensuring that inappropriate use or disclosure of such information is avoided;

- (h) in accordance with the security risk assessments carried out by the Co-ordinator and appropriate organisations and agencies to include but not limited to law enforcement agencies in Grenada), ensuring that appropriate measures are developed in Grenada to protect the confidentiality, integrity and availability of critical information and communications technology systems and data used for civil aviation purposes from interference that may jeopardise the safety of civil aviation; and
- (i) ensuring that the entities involved with or responsible for the implementation of various aspects of the National Civil Aviation Security Programme in Grenada identify their critical information and communications technology systems and data, including threats and vulnerabilities thereto, and develop and implement protective measures to include security by design, supply chain security, network separation, and remote access control, as appropriate.

6. Co-ordinator for National Civil Aviation Security.—(1) The Minister shall designate a public officer to be Co-ordinator for National Civil Aviation Security who shall be a person with training or experience in aviation security.

(2) The Co-ordinator shall assist the Minister in the performance of his or her functions and shall—

- (a) advise the Minister and the National Civil Aviation Security Committee on matters relating to aviation security;
- (b) subject to the approval of the Minister, develop, maintain and implement the National Civil Aviation Security Programme, the National Civil Aviation Security Training Programme, the National Air Transport Facilitation Programme and the National Civil Aviation Quality Control Programme;
- (c) coordinate security measures and procedures with aviation stakeholders on implementation of aviation security measures including facilitation matters;

-
- (d) carry out security risk assessments with appropriate organisations and agencies to include but not limited to law enforcement agencies;
 - (e) notify the Authority of breaches of these Regulations or non-compliance with approved security programmes;
 - (f) oversee the certification of aviation security screeners;
 - (g) be responsible for ensuring that any person who performs screening operations or any person who supervises screening operations is a holder of a valid aviation screener certificate;
 - (h) conduct security quality control through audits, tests, and inspections on a regular basis in Grenada and verify compliance with these Regulations and the National Civil Aviation Security Programme to provide for the rapid and effective rectification of any deficiencies;
 - (i) ensure that all aviation security programmes, policies and standards are implemented and operationally applied; and
 - (j) review security programmes to ensure compliance with the national programme prior to submission to the Authority for approval.

(3) The Co-ordinator shall in accordance with these Regulations report on his or her activities to the Minister and to the Authority.

(4) The Co-ordinator shall have access to all areas of any aerodrome which is under the control of the Government or a statutory body.

7. Responsibilities of The Eastern Caribbean Civil Aviation Authority.—(1) The Authority shall have such functions and powers as may be conferred or imposed on it by the Act or these Regulations and without limiting such functions and powers shall have the power—

- (a) to develop and establish training standards applicable to persons implementing security controls at aerodromes or on behalf of aircraft operators excluding the screener certification programme which said screener certification programme the Authority shall only be responsible to review and approve as is necessary;

-
- (b) to conduct security oversight through audits, tests, and inspections on a regular basis in Grenada and verify compliance with these Regulations and the National Civil Aviation Security Programme;
 - (c) to carry out monitoring activities in Grenada and to exercise enforcement powers to ensure compliance with aviation security legislation, monitor the effectiveness of the National Civil Aviation Security Programme, and to verify that corrective actions rectify identified deficiencies;
 - (d) to continuously liaise with international regulatory agencies to determine new requirements, threats and preventative security measures for civil aviation;
 - (e) to review and approve security programmes in accordance with Part III;
 - (f) to review national programmes to ensure compliance with applicable civil aviation security requirements, including the provision of Annex 17 and Annex 9 of the Chicago Convention, prior to submission for approval by the Minister; and
 - (g) ensuring the uniform application of regulations, standards and quality control activities across all Member States.
- (2) The Authority shall be responsible for the certification of aviation security instructors.
- (3) The Authority shall provide civil aviation security oversight of Grenada so that quality control mechanisms are effective and consistently implemented to ensure the continued proficiency of certified aviation security instructors.
- (4) The Authority shall be responsible for the approval of security screening equipment in Grenada.

8. Aviation Security Inspectorate.—(1) The Authority shall establish an Aviation Security Inspectorate comprised of qualified aviation security inspectors who shall conduct security audits, tests, and inspections in Grenada on a regular basis.

(2) The Authority shall ensure that aviation security inspectors are trained to the appropriate standard in accordance with the National Civil Aviation Security Quality Control Programme.

(3) The Aviation Security Inspectorate shall be headed by the Director of Air Navigation Services Division who shall have the delegated authority to issue any certificate, approval or other written document in support of the functions assigned to it.

(4) Save and except the enforcement powers of the Director-General, which powers by virtue of section 13(2) of the Act shall be incapable of delegation, the Director of Air Navigation Services Division shall have the power to perform such acts on behalf of the Director-General pursuant to these Regulations including the power to appoint aviation security inspectors.

(5) Aviation security inspectors shall be appointed by the Authority for the purpose of conducting such security audits, tests and inspections.

(6) A person authorised in writing by the Authority to conduct such security audits, tests and inspections may, at any reasonable time, and upon presentation of the appropriate credentials issued by the Authority, shall have free, unrestricted and uninterrupted access to any aerodrome, aircraft, or aviation facility located on an aerodrome, or any land and area outside the airport used by businesses that operate outside the airport.

(7) Aviation security inspectors shall have the right of access at all reasonable times—

- (a) to any aerodrome for the purpose of inspecting the aerodrome or any aircraft on the aerodrome or any document which the Director-General may, in terms of these Regulations, demand, or for the purpose of detaining the aircraft;
- (b) to any place, whether public or private, where an aircraft is located for the purpose of inspecting the aircraft or any document which it or such person has power, in terms of these Regulations, to demand or for the purpose of detaining the aircraft;
- (c) to any aircraft, for the purpose of checking, whilst in flight, the performance of the aircraft or any of its equipment and the efficiency of flight crew members in the performance of their duties;
- (d) to take into an airport, airside area, any designated security restricted area or any businesses and use any equipment necessary to carry out their duties, including radios, cameras, recording devices (both audio and video) and specially authorised restricted or prohibited items, such as replica weapons or simulated explosive devices.

(8) An aviation security inspector may inspect and copy any document issued pursuant to the Civil Aviation Regulations.

(9) A person shall not obstruct, impede or otherwise interfere with the copying of the documents referred to in sub-regulation (8) by an aviation security inspector.

(10) A person involved or participating in an aviation activity shall, within a specific time after being instructed to do so by an aviation security inspector, cause to be produced to the inspector the documents which he or she is required to have, carry, complete or preserve during the course of his or her activities.

(11) The holder of a civil aviation document issued under the Civil Aviation Regulations shall, within a reasonable time after being requested to do so by an aviation security inspector, cause the document to be produced to the inspector.

9. National Civil Aviation Security Committee.—(1) There shall be a National Civil Aviation Security Committee for the purposes of—

- (a) advising Government and the aviation industry on Aviation Security measures required to meet threats to civil aviation and its facilities;
- (b) assigning responsibilities for the implementation of the National Civil Aviation Security Programme and establishing the means of ensuring coordination between the Ministries, Government departments and other relevant agencies for that purpose;
- (c) reviewing and maintaining the effectiveness of the National Civil Aviation Security Programme, the National Civil Aviation Security Quality Control Programme and the National Civil Aviation Security Training Programme including re-evaluating security measures and procedures following an act of unlawful interference and taking such action as may be necessary to remedy weaknesses or vulnerabilities and prevent recurrence of any act of unlawful interference;
- (d) considering recommendations made by the Aerodrome Security Committee relating to a designated aerodrome in Grenada and, where appropriate, recommending changes to the Authority;
- (e) coordinating the exchange and dissemination of information on incidents, threats and appropriate countermeasures relating to aviation security;

-
- (f) promoting security consideration in the design of new Aerodromes or the expansion of existing facilities;
 - (g) ensuring the coordination of aviation security and facilitation measures between the Government Ministries, departments and other relevant agencies;
 - (h) keep the implementation of such measures under constant review and make recommendations for changes to these measures in response to new threat information, developments in aviation security technology and techniques, and other factors including the airspace above;
 - (i) propose new aviation security policies and regulations or amendments to existing ones; and
 - (j) consider ways to cooperate with international organizations and other States so as to achieve common minimum aviation security standards that enhance the security of civil aviation as a whole.

(2) The National Civil Aviation Security Committee may issue advice not inconsistent with these Regulations to the Minister, and the Minister shall consider and implement such advice where necessary.

(3) The National Civil Aviation Security Committee shall consist of the following members or their designate—

- (a) the Permanent Secretary as the Chairman;
- (b) the Co-ordinator for National Civil Aviation Security as Deputy-Chairman;
- (c) the Attorney-General;
- (d) the Commissioner of Police;
- (e) the Comptroller of Customs;
- (f) the Chief Fire Officer;
- (g) the Chief Immigration Officer;
- (h) a representative nominated by the airline industry; and
- (i) the managers of aerodromes serving civil aviation.

(4) An official mentioned in sub-regulation (3) shall notify the Chairman in writing of an alternate who shall attend meetings of the National Civil Aviation Security Committee when that official is unable to attend.

(5) The Chairman may invite any other person with specialised knowledge of a matter under consideration by the National Civil Aviation Security Committee to be present at any meeting of the Committee.

(6) Subject to sub-regulation (7) the Committee shall regulate its own procedure.

(7) No less than six members or their representatives of the National Civil Aviation Security Committee, including not less than five of the members referred to in paragraphs (a), (b), (c), (d), (e), (h), and (i) of sub-regulation (3), shall constitute a quorum.

(8) The Committee shall issue a summary report of each meeting to the Minister and the Authority, which shall include systematic monitoring and analysis of the level of threat to civil aviation.

10. National Civil Aviation Security Programme.—(1) The Co-ordinator shall with the approval of the Minister, subject to sub-regulations (2) and (3), establish and implement a National Civil Aviation Security Programme.

(2) A National Civil Aviation Security Programme established pursuant to this regulation shall—

- (a) set out the Government's security policy in respect of civil aviation within Grenada and for aircraft registered in Grenada and provide, through standards and guidelines, the necessary safeguards against acts of unlawful interference;
- (b) define and allocate tasks and coordinate activities relating to civil aviation security between the departments, agencies and other organisations of the State, aerodrome operators, air operators and air carriers and other entities concerned with or responsible for responding to threats or acts of unlawful interference within Grenada;
- (c) be structured in the manner set out in Schedule I.

(3) The Co-ordinator shall submit a draft National Civil Aviation Security Programme to the Authority for review, prior to submission to the Minister for approval in accordance with sub-regulation (1).

(4) The Co-ordinator shall make the National Civil Security Programme or relevant parts of the National Civil Aviation Security Programme available to Aerodrome operators, air operators, and other persons as the Co-ordinator may determine.

11. National Civil Aviation Security Quality Control Programme.—(1) The Co-ordinator shall, with the approval of the Minister, subject to sub-regulations (2) and (3), establish and implement a National Civil Aviation Security Quality Control Programme.

(2) The National Civil Aviation Security Quality Control Programme established pursuant to these Regulations shall be used to determine compliance with and validate the effectiveness of the National Civil Aviation Security Programme and these Regulations.

(3) The National Civil Aviation Security Quality Control Programme shall be structured in the manner set out in Schedule II.

(4) The Co-ordinator shall submit a draft National Civil Aviation Security Quality Control Programme to the Authority for review, prior to submission to the Minister for approval in accordance with sub-regulation (1).

12. National Civil Aviation Security Training Programme.—(1) The Co-ordinator shall, with the approval of the Minister, subject to sub-regulations (2) and (3), establish and implement a National Civil Aviation Security Training Programme.

(2) The National Civil Aviation Security Training Programme established pursuant to these Regulations shall ensure that personnel of all entities involved with or responsible for the implementation of various aspects of the National Civil Aviation Security Programme receive training in accordance with standards contained in the programme.

(3) The Co-ordinator shall submit a draft National Civil Aviation Security Training Programme to the Authority for review and recommendations, prior to submission to the Minister for approval in accordance with sub-regulation (1).

(4) The National Civil Aviation Security Training Programme shall be structured in the manner set out in Schedule III.

PART III
SECURITY PROGRAMMES

13. Security Programmes.—(1) A person intending to operate an Aerodrome serving international civil aviation in Grenada shall, prior to commencing operations, develop and submit a proposed Aerodrome Security Programme which meets the requirements of these Regulations and the National Civil Aviation Security Programme and obtain acceptance and approval.

(2) Any person intending to commercially operate an aircraft registered in Grenada, within Grenada or internationally shall develop and submit a proposed Aircraft Operator Security Programme in respect of its operations, for acceptance and approval before such operations may commence.

(3) The Air Transport Licensing Board shall, in accordance with sub-regulations (6) and (7), submit the relevant parts of the Aircraft Operator Security Programme of an operator applying for an Air Transport License pursuant to Part IV of the Act or a Foreign Operator Specific Operating Provision pursuant to this regulation and the National Civil Aviation Security Programme.

(4) Any person intending to operate as a Regulated Agent in Grenada shall, prior to commencing operations, develop and submit a proposed Regulated Agent Security Programme for acceptance and approval.

(5) Any person intending to operate an enterprise or an organisation the purpose of which is the provision of catering supplies and stores for use in commercial air transport, within and through Grenada, shall submit for acceptance and approval a proposed Catering Operator Security Programme for the operations, before such operations may commence.

(6) Any person intending to operate as an air traffic service provider with responsibilities for the provision of air traffic control services, flight information and alerting services within and through Grenada, shall submit for acceptance and approval a proposed Air Traffic Services Security Programme for the operations, before such operations may commence.

(7) A proposed Security Programme shall first be submitted to the Co-ordinator for review and comments, prior to its submission to the Authority for acceptance and approval.

(8) The Authority shall review a Security Programme submitted following the Co-ordinator review and shall provide its recommendations with which the operator shall comply before final approval may be granted by the Authority.

(9) A Security Programme referred to in these Regulations shall be signed by the applicant and shall provide for the safety and security of—

- (a) passengers, crew and their property;
- (b) aircraft; and
- (c) related aviation support facilities,

against acts of unlawful interference and sabotage.

(10) A person who wishes the proposed Security Programme under these Regulations to be reviewed and accepted shall—

- (a) submit a hard and electronic copy of the proposed Security Programme at least ninety (90) days before the intended date of operations;
- (b) pay the prescribed fee; and
- (c) meet the requirements of these Regulations.

14. Additional requirements for applications.—(1) Where a person, in accordance with regulation 13, submits a security programme as part of the application for—

- (a) an Aerodrome Certificate or other authorisation under the Act or Regulations; or
- (b) an Air Operator Certificate; or
- (c) an Air Transport Service Licence or foreign air operator Specific Operating Provision,

that person shall, in addition to meeting the requirements for certification or other authorisation, meet the requirements for the Security Programme under these Regulations.

(2) For the purpose of these Regulations, a Security Programme shall be assessed by the Co-ordinator for adequacy to ensure compliance with the National Civil Aviation Security Programme, any directives or procedures and applicable legislation prior to submitting for acceptance and approval by the Authority.

15. Approval of a proposed security programme.—(1) Where the Co-ordinator is satisfied that a proposed security programme submitted in accordance with regulation 13 meets the requirements of these Regulations and does not conflict with the National Civil Aviation Security Programme, he or she shall recommend the approval of the proposed security programme to the Authority.

(2) Where the Authority determines that a proposed security programme submitted in accordance with regulation 13 requires modification, it may direct the applicant to modify and re-submit the proposed security programme for acceptance by the Authority.

(3) An acceptance under these Regulations does not authorise the aerodrome operator, aircraft operator, regulated agent or catering operator to use the proposed security programme submitted for approval under these Regulations in its operations, until the implementation of such programme has been evaluated and the programme has been approved for use by the Authority.

(4) The Authority shall notify the Co-ordinator and the relevant entity of the decision in writing.

16. Contents of an Aerodrome Operator Security Programme.—(1) An Aerodrome Operator Security Programme required under regulations 13 and 14 in respect of a certified aerodrome shall be designed to safeguard against acts of unlawful interference and shall include—

- (a) the objective of the security programme;
- (b) a description of the aerodrome, including a description of the air operations area, the restricted area, and the sterile area of the aerodrome;
- (c) the composition and responsibilities of the aerodrome security committee;
- (d) details of the security measures at the aerodrome, including access control systems and perimeter security;
- (e) the duties and responsibilities of persons who are required by the nature of their duties to be resident at the aerodrome;
- (f) details of the provision of adequate law enforcement support and response;

-
- (g) details of the aerodrome operator's credentialing and background checks of persons who will have unescorted access privileges to the restricted area of the aerodrome;
 - (h) a description of the security and communication procedures;
 - (i) details of the procedures to be followed in response to acts of unlawful interference;
 - (j) details of security training for staff;
 - (k) the recruitment of staff;
 - (l) security measures and procedures for the Air Traffic Control Services at the aerodrome; and
 - (m) such other matters as may be required by the Authority.

(2) An Aerodrome Operator Security Programme referred to in sub-regulation (1) shall be accompanied by a current scale map of the aerodrome referred to in regulation 47.

(3) An Aerodrome Operator Security Programme referred to in sub-regulation (1) shall be in the form set out in the National Civil Aviation Security Programme..

17. Development of an Aerodrome Operator Security Programme. In developing an Aerodrome Operator Security Programme referred to in regulation 16, an aerodrome operator shall take into consideration—

- (a) the special needs of general aviation, including reasonable access to aerodrome facilities and aircraft; and
- (b) the optimising of aerodrome security arrangements in the development, renovation and expansion of the aerodrome.

18. Approval of an Aerodrome Operator Security Programme.—(1) Where the Authority accepts a proposed Aerodrome Operator Security Programme in accordance with these Regulations, an aerodrome operator shall, within thirty (30) days of such acceptance, ensure that such aerodrome operator security programme is implemented and in full operation.

(2) Where an aerodrome operator has implemented the accepted aerodrome operator security programme, he or she shall submit a copy of the Security Programme to the Authority and notify the Authority that—

-
- (a) the accepted programme has been implemented; and
 - (b) the Aerodrome operator wishes to commence operations under such implemented programme, once it is approved by the Authority.

(3) Where the Authority is satisfied that the security programme implemented in the operations at the aerodrome and the accepted programme of the Aerodrome operator are identical, the programme shall be approved for full operation in commercial air transport operations.

(4) Notwithstanding sub-regulation (3), where the programme implemented in the operations of the aerodrome operator and the accepted programme are not identical, but the differences are within an acceptable level as determined by the Authority, the Authority shall review the programme and may approve it, subject to a limitation and amendment.

19. Development of security measures for aircraft operators. An Aircraft Operator Security Programme shall meet the requirements of these Regulations and the National Civil Aviation Security Programme and shall contain measures to ensure that—

- (a) passengers, crew members and their cabin baggage are screened prior to boarding an aircraft;
- (b) a checklist is used for pre-flight security checks of originating aircraft and of arriving and/or departing aircraft, or a security search is conducted when an aircraft is suspected of being a possible target;
- (c) the aircraft is protected from unauthorised interference from the time the aircraft check or search has commenced until the aircraft departs;
- (d) the movement of persons and vehicles to and from the aircraft is supervised in security restricted areas in order to prevent unauthorised access to the aircraft;
- (e) passengers disembarking from the aircraft do not leave any items behind, and any item left behind is removed from the aircraft or otherwise dealt with appropriately before departure of the aircraft;
- (f) prohibited items such as weapons, explosives, or any other dangerous devices, articles or substances, which may be used to commit an act of unlawful interference, are prevented from being introduced, by any means whatsoever, on board an aircraft engaged in civil aviation operations;

-
- (g) no restricted articles or baggage carried by, or belonging to passengers, are taken on board the aircraft;
 - (h) during flight, unauthorised persons are prevented from entering the flight crew compartment;
 - (i) passengers and their cabin baggage which have been screened are protected from unauthorised interference from the point of screening until they board their aircraft, and if mixing or contact does take place, the passengers concerned and their cabin baggage shall be re-screened before boarding the aircraft;
 - (j) originating and transfer hold baggage to be carried on the aircraft is screened and protected from unauthorised interference from the point it is screened or accepted into the care of the air operator, until departure of the aircraft on which it is to be carried. If the integrity of hold baggage is jeopardised, the hold baggage shall be re-screened before being placed on board an aircraft;
 - (k) the baggage of persons who are not on board the aircraft is not transported unless such baggage is identified as unaccompanied and subjected to appropriate screening;
 - (l) storage areas are established at aerodromes through which the air operator operates, where mishandled baggage may be screened and held until forwarded, claimed or disposed of in accordance with the National Civil Aviation Security Programme to ensure that they are not tampered with;
 - (m) consignments checked in as hold baggage by courier services for carriage on passenger aircraft are screened;
 - (n) only items of hold baggage which have been individually identified as accompanied or unaccompanied, screened to the appropriate standard and recorded as authorised for carriage on that flight by the air operator's appointed person in accordance with the standards specified in the National Civil Aviation Security Programme are loaded;
 - (o) procedures are specified for the carriage of weapons on board an aircraft and is allowed only when an authorised and duly qualified person has determined that they are not loaded and then only if stowed in a place inaccessible to passengers during flight time;

- (p) security measures are established which provide for cargo and mail consignments, catering, stores and supplies to be screened and protected from unauthorised interference from the point that security controls are applied until departure of the aircraft;
- (q) security controls are established to prevent acts of unlawful interference with aircraft when they are not in security-restricted areas;
- (r) transfer passengers and their cabin baggage are screened prior to boarding an aircraft;
- (s) transit operations protect transit passengers' cabin baggage from unauthorised interference and protect the integrity of the security of the airport of transit;
- (t) practices are established at airports and onboard aircraft to assist in the identification and resolution of suspicious activity that may pose a threat to civil aviation;
- (u) procedures are established to deal with unidentified baggage;
- (v) additional security measures are implemented during periods of elevated threat and for high-risk flights.

20. Contents of Aircraft Operator Security Programme.—(1) In addition to the matters set out in regulation 18, an aircraft operator shall ensure that the Aircraft Operator Security Programme required under regulation 13 contains provisions to meet—

- (a) international obligations; and
- (b) the requirement of the National Civil Aviation Security Programme and national obligations under the Act or Regulations made thereunder.

(2) In addition to the requirements of sub-regulation (1), a national aircraft operator shall ensure that its Aircraft Operator Security Programme contains—

- (a) a security policy and the procedures for ensuring—
 - (i) the security of passengers and passenger carry-on and checked baggage; and
 - (ii) the security of crew and crew carry-on and checked baggage;

- (b) procedures for—
 - (i) passenger and checked baggage reconciliation;
 - (ii) ensuring the security of the aircraft;
 - (iii) airline catering, stores and supplies;
 - (iv) aircraft cleaning operations;
 - (v) cargo, courier, express parcels and mail;
 - (vi) recruitment of staff;
 - (vii) training of staff; and
 - (viii) incident reporting;
- (c) details of contingency planning;
- (d) if performing screening operations, the procedures for screening, the methods and means of performing such screening, and other specifications as required under these Regulations; and
- (e) supervision and performance monitoring procedures to meet the security requirements for aerodrome through which the operator conducts business.

21. Approval and implementation of Aircraft Operator Security Programme.—(1) Upon a proposed Aircraft Operator Security Programme being accepted by the Authority in regulation 13, the aircraft operator shall, within thirty (30) days of such acceptance, ensure that such aircraft operator security programme is implemented and is in full operation.

(2) Where an aircraft operator has implemented its accepted Aircraft Operator Security Programme, it shall submit a copy of the Security Programme to the Authority and notify the Authority that it—

- (a) has implemented such a programme; and
- (b) wishes to commence operations under the programme, once it is approved by the Authority.

(3) Where the Authority is satisfied that the programme implemented in the operations of the aircraft operator and the accepted programmes are identical, the Authority may approve the programme for full operation in commercial air transport operations.

(4) Notwithstanding sub-regulation (3), where the aircraft operator security programme implemented in the operations of the aircraft operator and the accepted Aircraft Operator Security Programme are not identical, but the differences are within an acceptable level as determined by the Authority, the Authority may approve such programme, subject to a limitation and amendment.

22. Contents of a Regulated Agent Security Programme. A regulated agent shall ensure that the Regulated Agent Security Programme, as required under regulation 13, contains—

- (a) provisions to meet its international obligations;
- (b) provisions to meet the requirement of the National Civil Aviation Security Programme and national obligations under the Act or Regulations made thereunder; and
- (c) procedures for—
 - (i) ensuring the security of its goods, buildings, premises, transport facilities and cargo buildings;
 - (ii) recruitment and training of staff involved in the handling of goods; and
 - (iii) incident reporting.

23. Approval of a Regulated Agent Security Programme.—(1) Upon the Authority accepting the Regulated Agent Security Programme required under regulation 13, the regulated agent shall within thirty (30) days of such acceptance ensure that such programme is implemented and in full operation.

(2) Where the regulated agent has implemented the accepted programme in accordance with sub-regulation (1), it shall—

- (a) submit a copy of the Security Programme to the Authority and notify the Authority that it has implemented the accepted programme; and

- (b) commence operations under such implemented programme, once it is approved by the Authority.

(3) Where the Authority is satisfied that the programme implemented in the operations of the regulated agent and the accepted Regulated Agent Security Programme are identical, the Authority may approve the programme (hereinafter referred to as “an approved Regulated Agent Security Programme”) for full operation in the operations of the regulated agent.

(4) Notwithstanding sub-regulation (3), where the approved programme implemented in the operations of the regulated agent and the accepted programme are not identical, but the differences are within an acceptable level as determined by the Authority, the Authority may approve such programme, subject to limitations and amendment.

24. Contents of a Catering Operator Security Programme. A catering operator shall ensure that the Catering Operator Security Programme, required under regulation 13, contains—

- (a) provisions to meet its international obligations;
- (b) provisions to meet the requirements of the National Civil Aviation Security Programme and the national obligations under the Act or Regulations made thereunder; and
- (c) procedures for—
 - (i) ensuring the security of its goods, buildings, premises, transport facilities and catering buildings;
 - (ii) recruitment and training of staff involved in the handling of goods; and
 - (iii) incident reporting.

25. Acceptance of Catering Operator Security Programme.—(1) Upon the Authority accepting the Catering Operator Security Programme required under regulation 13, the catering operator shall within thirty (30) days of such acceptance ensure that the programme is implemented and is in full operation.

(2) Where the catering operator has implemented the programme in accordance with sub-regulation (1), it shall notify the Authority that it has implemented the programme; and that it wishes to commence operations under such programme, once it is approved by the Co-ordinator.

(3) Where the Authority is satisfied that the programme implemented in the operations of the catering operator and the accepted catering operator security programme are identical, it may approve the Catering Operator Security Programme, (hereinafter referred to as “an approved Catering Operator Security Programme”) for full operation in the operations of the catering operator.

(4) Notwithstanding sub-regulation (3), where the Catering Operator Security Programme implemented in the operations of the catering operator and the accepted Catering Operator Security Programme are not identical, but the differences are within an acceptable level as determined by the Authority, the Authority may approve such Catering Operator Security Programme, subject to a limitation and amendment.

26. Air Navigation Service Providers Security programme. An Air Navigation Service Provider shall—

- (a) develop, implement and maintain a security programme on the security of their facilities;
- (b) train staff in response to acts of unlawful interference in accordance with the National Civil Aviation Security Programme and the ICAO Doc 9985-Air Traffic Management Security Manual; and
- (c) submit the security programme for approval in accordance with regulation 13 (7), (8) and (9).

27. Contents of an Air Navigation Service Provider Security Programme.—(1) An Air Navigation Service Provider Security Programme required under Part III shall include the provisions to meet—

- (a) its international obligations;
- (b) national obligations under the Act or Regulations made thereunder;
- (c) the requirement of the National Civil Aviation Security Programme;
- (d) develop measures in order to protect information and communication technology systems used for civil aviation purposes from interference that may jeopardise the safety of civil aviation under regulation 97.

(2) An air navigation services provider shall within thirty days of approval of its security programme ensure that the programme is implemented and in full operation.

28. Changed conditions affecting security.—(1) Where a Security Programme has been approved in accordance with these Regulations (hereinafter referred to as “an approved Security Programme”), the aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider (where applicable) shall follow the procedures set out in sub-regulation (2), where it is determined—

- (a) in respect of an aerodrome operator—
 - (i) any description of the aerodrome area set out in such Aerodrome Operator Security Programme is no longer accurate;
 - (ii) there are changes to the designation of the aerodrome security director or the composition of the Aerodrome Security Committee required by these Regulations;
- (b) that any description of its operations no longer accurately describes the procedures, facilities and equipment described in such programme;
- (c) that the location of equipment and facilities has been changed; or
- (d) that the procedures, facilities and equipment are no longer adequate.

(2) Whenever a condition described in sub-regulation (1) occurs, the aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider (where applicable) shall—

- (a) immediately notify the Co-ordinator and the Authority in writing of the changed condition, and identify each interim measure being taken to maintain adequate security until approval is granted for an appropriate amendment to the approved Security Programme; and
- (b) within thirty (30) days after notifying the Authority in accordance with paragraph (a), submit for approval in accordance with regulation 27, an amendment to the security programme to bring it into compliance with these Regulations.

29. Amendment of an approved security programme.—(1) Where an aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider wishes to amend an approved Security Programme, the operator shall submit the proposed amendment for review, acceptance and approval in accordance with regulation 13 (7), (8) and (9) and regulation 14 under Part III, at least thirty (30) days before the intended effective date.

(2) When the Authority is satisfied that the proposed amendment to the security programme provides the level of security required by these Regulations, it may approve the proposed amendment.

(3) The Authority shall notify the Co-ordinator of any proposed amendment to an approved security programme, prior to granting approval.

30. Amendment of an approved security programme by the authority.—(1) The Authority may require an aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider to amend its approved Security Programme, where it is determined that safety and the public interest require the amendment.

(2) Except in an emergency as provided in sub-regulation (5), where the Authority requires an aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider to amend its approved Security Programme referred to in sub-regulation (1), the Authority shall in writing notify the aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider, of the required amendment and allow a period of thirty (30) days from the date contained in the notice, for a written response from such aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider.

(3) Subject to sub-regulation (4), following the thirty-day (30-day) notice period and after considering any written responses received during that period, the Authority shall issue a final amendment to the aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider, as appropriate.

(4) Upon receipt of a notice of a proposed amendment under sub-regulation (2), the aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider may submit an alternative amendment to the approved security programme which meets the intent of the required amendment referred in sub-regulation (2) for consideration by the Authority.

(5) When the Authority is satisfied that the alternative amendment submitted in sub-regulation (4) would provide an overall level of security equal to that required, it may approve the alternative amendment to the approved security programme.

(6) Where the Authority determines that an emergency exists which requires immediate action that makes the procedure in sub-regulations (2) and (3) impracticable or contrary to the public interest and safety, it may direct the aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider to deviate in a specified manner from the approved security programme in the area of concern for a period not exceeding thirty (30) days.

(7) The Authority shall notify the Co-ordinator, whenever it requires an aerodrome operator, aircraft operator, regulated agent, catering operator or air navigation service provider to amend an approved security programme, except in the case of an emergency as provided in sub-regulation (6).

PART IV

AERODROME SECURITY

31. General responsibilities of an aerodrome operator.—(1) An aerodrome operator shall, prior to the implementation of any renovation and expansion works to its Aerodrome or the construction of additional Aerodrome facilities at the same location, submit a revision of the measures designed to safeguard against acts of unlawful interference in keeping with regulation 13 (7), (8) and (9) and regulation 14, under Part III.

(2) Where a foreign aircraft operator uses the aerodrome facilities of an aerodrome operator, the Authority may, in co-ordination with the aerodrome operator, approve an inspection in order to assess the adequacy of the security measures.

32. Aerodrome Security Committee.—(1) An aerodrome operator shall establish an Aerodrome Security Committee to ensure the implementation of any national civil aviation security initiatives that may be required by the Co-ordinator from time to time.

(2) The terms of reference for the Aerodrome Security Committee shall be as set out in the National Civil Aviation Security Programme.

33. Aerodrome operator to provide aviation security and screening officers.—(1) An aerodrome operator shall provide aviation security officers and aviation screening officers, in the number and in a manner adequate to support and carry out the requirements of—

- (a) the Aerodrome Operator Security Programme; and
- (b) each passenger screening system required under these Regulations.

(2) An aerodrome operator shall ensure that each aviation security officer or aviation screening officer who it employs—

- (a) abstains from the consumption of alcoholic beverages or other intoxicating or controlled substances that may impair judgment, vision, cognition, or mobility while on duty at the aerodrome;

- (b) is readily identifiable by uniform, or displays or carries a badge or other identification of his or her authority while on duty;
- (c) has completed a training programme that meets the requirements in sub-regulation (7); and
- (d) is certified in accordance with the provisions of Part VIII.

(3) An aerodrome operator shall ensure that an aviation security officer in its employ conducts security duties in accordance with the applicable provisions of these Regulations.

(4) An aerodrome operator may request permission from the Commissioner of Police for a duly certified aviation security officer to carry firearms while on duty at the aerodrome.

(5) An aviation security officer shall, while on duty at an aerodrome, have the authority to arrest, with or without a warrant, any person who commits—

- (a) an offence in his or her presence; or
- (b) an offence, when he or she has reason to believe that such offence has been committed.

(6) The training programme referred to in sub-regulation (2) (c) must be approved by the Authority and shall outline training in the subjects specified in sub-regulation (7) and shall meet the training requirements as set out in the Implementing Standards.

(7) The training programme referred to in sub-regulation (2) (c) shall include training in—

- (a) the courteous and efficient treatment of persons subject to inspection, detention, search, arrest, and other aviation security activities;
- (b) the responsibilities of members of the Police Force under the approved Aerodrome Operator Security Programme; and
- (c) any other area the Authority determines to be necessary.

34. Employer responsibility for aviation security officers and aviation screening officers.—(1) An aerodrome operator, aircraft operator or aerodrome tenant shall not employ any person as an aviation security officer or aviation screening officer unless that person—

- (a) meets the requirements of these Regulations;
- (b) has been trained in accordance with the requirements of these Regulations, where his or her duties are in respect of the screening of passengers, crew, baggage, cargo, and mail; and
- (c) is approved by the aerodrome operator, where he or she is employed by an aircraft operator or aerodrome tenant as an aviation security officer or aviation screening officer.

(2) An aerodrome operator shall ensure that—

- (a) initial and periodic background checks are performed in respect of each aviation security officer and aviation screening officer; and
- (b) initial and recurrent training on aviation security is received by each aviation security officer and aviation screening office in its employ.

(3) An aerodrome operator shall keep an accurate record of the initial and periodic background checks, experience and training of an aviation security officer and aviation screening officer in its employ for the duration of the employment and thereafter for a period of one year and shall make available such records for inspection and copying to the Co-ordinator and the Authority upon request.

35. Use of members of the Police Force.—(1) In cases of emergency, where it may be necessary to replace or supplement the number of Aviation Security Officers at an aerodrome with members of the Police Force or similar entities, the aerodrome operator shall ensure that the replacing officers are suitably trained and qualified to perform the duties and functions they are expected to perform.

(2) For the purposes of sub-regulation (1), the Co-ordinator may make a request to the Commissioner of Police or other appropriate entity, to approve the assignment of members of the Police Force or other security personnel, as the case may be, to the aerodrome.

36. Requirement to screen persons, carry-on baggage, goods and vehicles. An aviation security officer or an aviation screening officer shall screen—

- (a) every person seeking entry into the restricted or sterile area of the aerodrome;
- (b) the carry-on baggage and goods of every person entering the restricted or sterile area of the aerodrome; and

- (c) every vehicle driven by a person who enters or leaves a restricted or sterile area of the aerodrome.

37. Procedure on refusal of person to submit to screening.—(1) A person who enters a restricted or sterile area shall be subject to the screening of his or her person, goods, vehicle or means of conveyance in his or her possession by an aviation security officer or an aviation screening officer.

(2) Where a person refuses to be screened in accordance with sub-regulation (1) that person shall—

- (a) not be permitted to enter the restricted or sterile area;
- (b) be ordered to leave the restricted or sterile area; and
- (c) have the goods, vehicle or means of conveyance in his or her possession removed from the restricted or sterile area.

(3) Where, after having boarded an aircraft, a passenger is required by an aviation security officer or aviation screening officer to submit to the screening of his or her person or the goods that he or she carried or had placed on board the aircraft, and he or she refuses such a screening, the aviation security officer or the aviation screening officer shall—

- (a) order that person to disembark the aircraft; and
- (b) remove the carry-on baggage, goods or checked baggage belonging to that person.

38. Treatment of unaccompanied baggage.—(1) Baggage accepted as cargo by the aircraft operator shall be treated as unsecure cargo, transported with an air waybill, and shall be subjected to appropriate security controls, which shall include (but not be limited to) screening, prior to loading.

(2) All unidentified baggage shall be treated as suspect and handled in accordance with the procedures established in the National Civil Aviation Security Programme.

39. Security measures of an aerodrome tenant.—(1) An aerodrome tenant shall develop security measures to manage access to restricted areas under its control in accordance with the Aerodrome Operator Security Programme and shall submit the details in writing for the approval of the aerodrome operator. Such security measures shall become part of the Aerodrome Operator Security Programme.

(2) An aerodrome tenant shall ensure that its personnel receive aerodrome security training or security awareness training, as appropriate, in accordance with the approved Aerodrome Operator Security Programme.

(3) An aerodrome tenant shall not use a person as an aviation security officer unless the person has been subject to a background check as required under regulation 34, received appropriate training as required under regulations 33 and 34, and the employment of such person has been approved by the aerodrome operator.

40. False statements, entries or unauthorised reproduction. A person shall not make or cause to be made—

- (a) a fraudulent or intentionally false statement in any Aerodrome Operator Security Programme or an application for any security programme, access medium, or identification medium;
- (b) a fraudulent or intentionally false entry in any record or report that is kept, made or used to—
 - (i) show compliance with these Regulations; or
 - (ii) exercise any privileges under these Regulations; and
- (c) a reproduction or alteration of any report, record, security programme, access medium or identification medium issued pursuant to these Regulations without the approval of the aerodrome operator.

41. Access control system.—(1) An aerodrome operator shall ensure that the location and function of restricted areas at the aerodrome are designated and properly defined.

(2) The level of access to a restricted or sterile area shall be clearly defined and made known to all persons at the aerodrome whose duties require them to have restricted or sterile area access.

(3) An aerodrome operator shall include, in his or her approved Aerodrome Operator Security Programme, details of a system, method and procedure which shall ensure that—

- (a) access points into restricted or sterile areas are limited in number, and physical access through which those access points are strictly controlled;

-
- (b) entry points which cannot be effectively controlled are locked or otherwise secured against entry by unauthorised persons;
 - (c) access by persons and vehicles to restricted and sterile areas is restricted only to persons who must have access by virtue of their duties;
 - (d) security restricted areas not subject to continual access control measures shall be subjected to a thorough search, prior to being brought into use;
 - (e) a person whose duties require him to be in the restricted or sterile area of the aerodrome is required to have on display on his or her person a valid aerodrome identification badge, and any baggage or item he or she carries shall be screened before being allowed access into a restricted or sterile area;
 - (f) the screening referred to in paragraph (e) shall be to the same standard as that required for passengers, pursuant to these Regulations; and
 - (g) persons at an aerodrome are aware of the areas that are restricted or sterile areas.

(4) Notwithstanding the screening requirements referred to in sub-regulation (3) (e), the aerodrome operator may consider the screening of persons and goods at certain access points on a random and unpredictable basis depending on the risk assessment, where details of such risks are included in an approved Aerodrome Operator Security Programme.

(5) The system referred to in sub-regulation (3) shall provide a means to differentiate between persons authorised to have access to only a particular portion of the restricted area and persons authorised to have access only to other portions or to the entire restricted area, and shall be capable of limiting the access of an individual by time and date.

(6) The system referred to in sub-regulation (3) shall describe the scope of initial and periodic background checks conducted on every applicant for all types of passes issued.

42. Aerodrome operators to establish and use aerodrome identification media system.—(1) An aerodrome operator shall ensure that access to a restricted or sterile area of his or her aerodrome is controlled by the use of an identification badge system to identify persons and vehicles and facilitate access where authorised.

(2) An aerodrome operator shall ensure that all persons working at his or her aerodrome are issued with an aerodrome security identification badge by the organisation approved for such purpose and all such persons shall carry and display such identification permit on their person at all times while in the restricted or sterile area of the aerodrome.

(3) An aerodrome operator shall not issue to any person any identification badge that provides unescorted access to a restricted area, unless the person has successfully completed a background check required under regulation 34, and appropriate training in accordance with a curriculum specified in the approved Aerodrome Operator Security Programme of the aerodrome operator.

(4) The curriculum referred to in sub-regulation (3) shall detail the methods of instruction and shall include—

- (a) initial and recurrent security awareness training;
- (b) control, use and display of approved aerodrome security identification information;
- (c) procedures by aviation security officers, aviation screening officers and members of the Police Force for dealing with perceived unauthorised access;
- (d) restrictions on disclosure of information concerning an act of unlawful interference with civil aviation, where such information is likely to jeopardise the safety of domestic or international aviation;
- (e) non-disclosure of information regarding the aerodrome security system or any security system of an aerodrome tenant to unauthorised persons; and
- (f) any other topic deemed necessary by the aerodrome operator or the Co-ordinator.

(5) A person shall not use an aerodrome identification badge that provides unescorted access to a security restricted area to gain such access, unless that badge was issued to such person by the aerodrome operator.

(6) An aerodrome operator shall keep a record of all training given to each person under this regulation for six (6) months after the termination of the unescorted access privileges of that person.

(7) The aerodrome operator shall have in place, as part of its approved security programme, a system for conducting periodic audits of identification media issued by the aerodrome operator, a process for tracking lost or stolen identification media, and procedures for control, re-issuance and validation of identification media.

(8) An aerodrome operator shall establish and implement procedures to ensure the periodic updating of the security features and design elements of airport personnel and vehicle identification media, in order to maintain their integrity and prevent misuse.

43. Landside security & security of operations area.—(1) The Minister shall ensure that landside areas of airports in Grenada are clearly identified and shall establish and implement appropriate security measures for those areas to mitigate the risk of, and prevent, acts of unlawful interference, in accordance with a security risk assessment.

(2) The Minister shall ensure that the security measures established and implemented, pursuant to sub-regulation (1), are effected through co-ordination (initial and continued) between relevant departments, agencies, other organisations of Grenada and other entities and shall identify appropriate responsibilities for landside security in the National Civil Aviation Security Programme.

(3) An operator of an aerodrome serving scheduled passenger operations shall perform the following control functions—

- (a) control the access to each air operations area, including methods for preventing the entry of unauthorised persons and ground vehicles;
- (b) control the movement of persons and ground vehicles within each air operations area including, when appropriate, requirements for the display of security identification; and

- (c) detect and take action to control each entry, or attempted entry to an air operations area by a person whose entry is not authorised under its approved Aerodrome Operator Security Programme.

(4) An aerodrome operator shall not required to comply with sub-regulation (3), with respect to an exclusive area under the control of the aircraft operator, where the aerodrome operator has established an Exclusive Area Agreement with the aircraft operator when the aerodrome operator is satisfied that the aircraft operator has included the following in his or her approved Aircraft Operator Security Programme—

- (a) a description of the procedure to satisfy the control functions referred to in sub-regulation (3);
- (b) a description of the facilities and equipment, used by the aircraft operator to perform the control functions described in sub-regulation (3); and
- (c) procedures by which the aircraft operator will notify the aerodrome operator when his or her procedures, facilities, and equipment are not adequate to perform the control functions described in sub-regulation (3).

(5) The Exclusive Area Agreement shall become a part of the Aerodrome Operator Security Programme, and the aerodrome operator shall be responsible for ensuring that the aircraft operator carries out the requirements for maintaining security as set out in the Exclusive Area Agreement.

44. Aerodrome operator to keep records.—(1) An aerodrome operator shall ensure that a record is kept of every security incident at its aerodrome.

(2) A record required to be kept in sub-regulation (1), shall—

- (a) be kept for a minimum of ninety (90) days;
- (b) be made available to the Authority or the Co-ordinator upon request; and
- (c) include the number—
 - (i) and type of prohibited item, such as weapons and incendiary devices, discovered during any screening process, and the method of detection of each;

- (ii) of acts and attempted acts of air piracy;
- (iii) of real and simulated bombs found at the aerodrome;
- (iv) of actual bombings at the aerodrome; and
- (v) of detentions and arrests and the immediate disposition of each person detained or arrested.

45. Evidence of compliance. On the request of the Authority, an aerodrome operator shall provide evidence of compliance with this Part and its approved Aerodrome Operator Security Programme.

46. Designation of Aerodrome Security Manager.—(1) An aerodrome operator shall, in accordance with his or her approved aerodrome operator security programme, designate an officer in its organisation as the Aerodrome Director of Security.

(2) The officer designated in accordance with sub-regulation (1) shall be available at all times.

(3) An Aerodrome Director of Security shall serve as the primary contact of the aerodrome operator for security-related activities and communications with the Authority and the Co-ordinator as set forth in the approved Aerodrome Operator Security Programme.

47. Aerodrome operator to keep map of aerodrome. An aerodrome operator shall keep, at the aerodrome, a current map to scale of the aerodrome that identifies the restricted and sterile areas, security barriers and restricted area access points and sterile area access points.

48. Aerodrome operator to provide authority and the co-ordinator with information.—(1) The aerodrome operator shall provide the Authority and the Co-ordinator, on reasonable notice given by the Authority or the Co-ordinator, with written or electronic records or other information relevant to the security of the aerodrome, including—

- (a) information concerning the method of implementing the security measures that apply to the aerodrome; and
- (b) a copy of the scale map referred to in regulation 47.

(2) An aerodrome operator shall provide the Authority and the Co-ordinator with written notice of any new commercial air transportation service intended to commence operations at the aerodrome, no less than thirty (30) days prior to the proposed commencement date.

49. Persons authorised to carry weapons into restricted areas. The following persons are authorised to carry a weapon into a restricted area—

- (a) a person performing screening functions on duty who has detected a weapon during screening;
- (b) an aviation security officer if—
 - (i) the weapon has been surrendered for the purpose of being carried in the hold of the aircraft;
 - (ii) the aircraft operator has agreed to carry the weapon in the hold of the aircraft; and
 - (iii) the weapon is carried in such a way that its presence is not apparent to members of the public;
- (c) an aviation security inspector on duty who is lawfully testing the screening system;
- (d) a person who, with the written consent of the airport operator, is engaged in controlling wildlife or other animals at the aerodrome; and
- (e) a duly certified aviation security officer pursuant to these Regulations or a member of the Police Force, Defence Force, ONDCP, Customs, Immigration or any other Law Enforcement Agencies on duty at the aerodrome.

PART V

AIRCRAFT OPERATOR SECURITY

50. Aircraft Operator Security Programme. An aircraft operator having an approved Aircraft Operator Security Programme shall—

- (a) maintain one complete copy of the approved Aircraft Operator Security Programme at its principal business office in Grenada;
- (b) maintain a complete copy of the pertinent portions of the approved Aircraft Operator Security Programme at each aerodrome where security screening is being conducted;
- (c) make the documents referred to in paragraphs (a) and (b), available for inspection, upon request by the Authority or the Co-ordinator; and

- (d) restrict the distribution, disclosure, and availability of security sensitive information only to persons who by their defined roles in the programme are required to have such information for the performance of their functions.

51. Pre-flight security check or search.—(1) Before conducting a flight, an aircraft operator shall ensure that an aircraft security check or an aircraft search of the aircraft is carried out in accordance the National Civil Aviation Security Programme.

(2) The Co-ordinator or the aircraft operator may direct that an aircraft security search, instead of a check be performed, if—

- (a) a security risk assessment undertaken by the Co-ordinator reveals an increased likelihood of an act of unlawful interference being perpetrated upon the aircraft operator or at the aerodrome;
- (b) the Co-ordinator or the aircraft operator has received information of a credible threat to aviation security; or
- (c) the threat level in Grenada has been raised by the Minister.

(3) An aircraft which has been the subject of an aircraft security check or search shall be protected from unauthorised access until its departure.

52. Screening of passengers and baggage.—(1) An aircraft operator shall conduct screening of—

- (a) originating passengers, transit passengers, transfer passengers and crew travelling on its aircraft;
- (b) the carry-on baggage belonging to persons referred to in paragraph (a);
- (c) the hold baggage of persons referred to in paragraph (a); and
- (d) any other goods in the hold of the aircraft.

(2) Notwithstanding sub-regulation (1), an aircraft operator may, in writing, authorise the aerodrome operator of the aerodrome from which it operates or any other person to conduct the screening functions set out in its approved Aircraft Operator Security Programme or supplementary station procedures.

(3) In giving an authorisation to an aerodrome operator or any other person referred to in sub-regulation (2), the aircraft operator shall, in writing, further instruct such aerodrome operator or person to prohibit any passenger refusing to be screened from entry onto any of its aircraft.

(4) An aircraft operator or an authorised person in sub-regulation (1), shall use the procedures, the facilities and equipment described in its Aircraft Operator Security Programme or supplementary station procedures—

- (a) to prevent or deter the carriage of any prohibited item, such as a weapon or incendiary device, on or about the person or in that person's carry-on baggage and prevent the carriage of any unauthorised prohibited item in checked baggage on aircraft;
- (b) to detect the existence of a prohibited item, such as a weapon or incendiary device, to inspect each person entering a sterile area at each pre-boarding screening checkpoint and to inspect all accessible property under the control of such person; and
- (c) to perform the following control functions with respect to each aircraft operation for which screening is required—
 - (i) prohibit unauthorised access to the aircraft;
 - (ii) ensure that baggage carried in the aircraft is checked-in by a properly trained agent and that identification is obtained from all passengers and persons shipping goods or cargo onboard the aircraft;
 - (iii) ensure that cargo and hold baggage carried on board the aircraft are handled in a manner that prohibits unauthorised access;
 - (iv) conduct additional screening of all unidentified or unaccompanied baggage prior to transport; and
 - (v) conduct an aircraft security check of the aircraft before placing it in service and after it has been left unattended.

53. Refusal to submit to screening.—(1) An aircraft operator shall refuse to transport—

- (a) any person who does not consent to an authorised search of his or her person when required to do so by the aircraft operator or person authorised to conduct such searches on its behalf; and
- (b) any property of any person who does not consent to a search or inspection of that property in accordance with the screening system prescribed by regulation 52.

(2) A foreign aircraft operator shall not conduct a flight—

- (a) within Grenada with a passenger on board who refuses to submit to a screening, required under these Regulations; or
- (b) while the carry-on or checked baggage of that passenger is on board the aircraft.

(3) Notwithstanding being in possession of a boarding pass, where the pilot-in-command of an aircraft has reasonable grounds to believe that a person is in violation of these Regulations, the pilot-in-command shall—

- (a) refuse to transport such person;
- (b) order that person to disembark the aircraft; and
- (c) order that the hold and cabin baggage of such person be removed from the aircraft.

(4) An aircraft operator shall ensure that screening checkpoint areas are properly served with properly trained supervisory and non-supervisory personnel in adequate numbers and in accordance with the standards specified in the Aircraft Operator Security Programme.

54. Separation of passengers.—(1) Departing passengers screened pursuant to these Regulations shall not mix or come into contact with arriving passengers or other persons who may not have been screened in accordance with these Regulations and the Implementing Standards.

(2) If mixing or contact does take place, contrary to sub-regulation (1), the passengers concerned, and their cabin baggage shall be re-screened before boarding an aircraft.

55. Items on board aircraft at transit stops. An aircraft operator shall establish measures to ensure disembarking passengers do not leave items on board an aircraft at transit stops.

56. Protection of hold baggage.—(1) The aircraft operator shall protect hold baggage from unauthorised access from the point at which it is accepted into the care of the aircraft operator until departure of the aircraft on which it is to be carried.

(2) An aircraft operator shall re-screen all hold baggage if it is known or suspected that the integrity of such baggage has been jeopardised by unauthorised access.

57. Reconciliation of hold baggage.—(1) Subject to sub-regulation (4), an aircraft operator shall not place hold baggage on board an aircraft, unless the person has checked in and is on board the aircraft.

(2) The aircraft operator shall not place hold baggage on board an aircraft unless that baggage has been screened in accordance with regulation 52.

(3) The aircraft operator shall establish a secure storage area at the aerodrome where mishandled baggage will be held until forwarded, claimed or disposed of.

(4) An aircraft operator shall not place mishandled baggage on an aircraft without subjecting such baggage to additional screening.

58. Cargo, mail and other goods.—(1) An aircraft operator shall screen cargo, courier consignments, express parcels and mail intended for carriage on passenger aircraft, in accordance with the Aircraft Operator's Security Programme.

(2) An aircraft operator may carry cargo, courier consignments, express parcels, and mail on a passenger or all-cargo aircraft without the application of additional security controls, provided that the application of appropriate screening or other security controls has been applied and confirmed by a regulated agent in accordance with its approved security programme.

(3) An aircraft operator shall ensure that cargo, courier consignments and express parcels and mail intended to be carried on any passenger or all-cargo aircraft are protected from unauthorised access from the point at which they are accepted into the care of the aircraft operator until departure of the aircraft on which they are to be carried.

(4) An aircraft operator shall re-screen all cargo, courier consignments and express parcels and mail, if it known or suspected that their integrity has been jeopardised by unauthorised access.

59. Procedures for the carriage of passengers in the custody of escort officers.—(1) An aircraft operator may carry a passenger who is required to travel in the custody of an escort officer on board an aircraft.

(2) An aircraft operator that permits the carriage of such passengers shall develop procedures for the acceptance, processing, security screening, boarding, carriage and disembarkation of those passengers, in accordance with the National Civil Aviation Security Programme.

60. In-Flight Security Officers.—(1) Members of the Police Force travelling may be appointed as In-Flight Security Officers under special authorisation from the Authority and the Minister.

(2) An aircraft operator shall, where directed by the Co-ordinator, permit and facilitate the carriage of an In-Flight Security Officer on specific flights to prevent—

- (a) unauthorised persons from gaining access to the flight deck; and
- (b) acts of unlawful interference, and other criminal acts on board an aircraft.

(3) The Minister may, by agreement with another State, permit the carriage of armed In-Flight Security Officers on board aircraft registered in that State travelling to or from Grenada.

(4) An In-Flight Security Officer under this regulation, where deployed on a flight, shall—

- (a) prevent unauthorised persons from gaining access to the flight deck and prevent hijackings and other acts of unlawful interference on board the aircraft; and
- (b) conduct crew briefings, prior to departure, to ensure the flight crew and cabin crew understand their role onboard the aircraft.

(5) The pilot-in-command shall be notified of the number and seat location of any In-Flight Security Officers on board the aircraft, prior to departure, by means of a Notice to Captain.

(6) The pilot-in-command shall inform each in-flight security officer, prior to departure, of the number and seat location of any other in-flight security officers on board the aircraft, by means of a Notice.

61. Carriage of weapons.—(1) An aircraft operator shall not permit any person to have on or about his or her person or property, a weapon, either concealed or unconcealed, accessible to him while onboard an aircraft.

(2) Sub-regulation (1) shall not apply in the circumstances where law enforcement officers and In-flight Security Officers are acting in the performance of their official duty.

(3) A person shall not carry a weapon on or about his or her person, either concealed or unconcealed, while onboard an aircraft operated by an aircraft operator.

(4) The aircraft operator shall comply with the procedures for the carriage of weapons set out in the National Civil Aviation Security Programme.

(5) Aircraft operators shall ensure that transported weapons and ammunition are safely returned to persons in an appropriate location at the destination airport.

(6) An aircraft operator shall not knowingly permit any person to transport, nor shall any person transport or tender for transport, any firearm in checked baggage on board an aircraft unless—

- (a) such person declares to the aircraft operator, either orally or in writing, before tendering the baggage for the purpose of being checked in, that he or she has a firearm carried in his or her checked baggage and it is unloaded;
- (b) the firearm is in a hard-sided and locked container;
- (c) the hold baggage or container containing the firearm is loaded on the aircraft in an area that is inaccessible to passengers; and
- (d) such person presents a licence for such firearm from the State that permits him to have in his or her possession such firearm, an export licence for such firearm from the State of departure and an import licence for such firearm issued by the State of destination.

(7) The aircraft operator shall ensure that the firearm is inspected by a police officer who is the holder of a firearms licence issued in Grenada to determine that the firearm is not loaded.

(8) The firearm shall be transported to the aircraft in the custody of the aviation security officer and the police officer who inspected the firearm.

(9) The pilot-in-command of the aircraft shall be notified of the presence of a firearm on board the aircraft, prior to departure, through a Notice to Captain.

62. Ground Security Co-Ordinator.—(1) An aircraft operator shall assign an appropriately qualified and trained person as a Ground Security Co-ordinator to co-ordinate the ground security duties specified in its approved Aircraft Operator Security Programme.

(2) In applying security measures for the prevention and management of acts of unlawful interference under these Regulations, both the aircraft operator and the aerodrome operator shall ensure that a list of prohibited items and other items prescribed by the Authority from time to time are controlled in the manner specified therein.

63. Training.—(1) An aircraft operator shall not use any person as a ground security co-ordinator, unless that person has satisfactorily completed the required security training specified in its approved Aircraft Operator Security Programme.

(2) An aircraft operator shall not use any person as a crew member on any domestic or international flight, unless that person has satisfactorily completed the security training required by these Regulations as specified in its approved Aircraft Operator Security Programme.

64. Authority or Co-ordinator may request information. An aircraft operator or a foreign aircraft operator shall, where the Authority or the Co-ordinator provides reasonable notice, provide the Authority or the Co-ordinator with a written or electronic record or other information relevant to the security of its operations, including—

- (a) information concerning the method of implementing the security measures that apply to the Aircraft Operator pursuant to these Regulations; and
- (b) a description of the nature of operations related to a particular flight and the services provided in respect of the flight.

PART VI

REGULATED AGENT SECURITY

65. Responsibilities of a regulated agent.—(1) In order to accept goods for transport on passenger aircraft, a regulated agent shall establish a known consignor programme.

(2) A regulated agent, prior to accepting goods for transport on board a passenger aircraft, shall—

- (a) establish the identity of the known consignor;
- (b) establish the credentials of the person who delivers the goods as an agent of the consignor;

-
- (c) ensure on the basis of security screening that such goods do not contain any prohibited items;
 - (d) ensure the safeguarding of such goods from unauthorised interference, after acceptance until tendered to an aircraft operator for transport by air;
 - (e) ensure the goods are received by staff who are properly recruited and trained;
 - (f) designate a person to implement and supervise the screening process;
 - (g) ensure that the following categories of goods are not carried by air, unless they have been subjected to screening—
 - (i) unaccompanied baggage;
 - (ii) goods from unknown consignors; and
 - (iii) goods for which the contents do not coincide with the description delivered; and
 - (h) ensure that each shipment of goods is accompanied by documentation stating that the goods were screened and do not contain prohibited items of such shipment.

(3) An approved regulated agent who offers goods to an aircraft operator for transport by air shall produce and make available to the aircraft operator and the Co-ordinator, on demand, shipping documents, records of goods accepted and offered for air transport, employee training records and airway bills.

66. Responsibilities of the aircraft operator receiving goods from a regulated agent.—(1) An aircraft operator accepting goods from a regulated agent for transport on its aircraft—

- (a) may conduct screening of such shipments of goods; and
- (b) shall ensure—
 - (i) the safeguarding of such goods against unlawful interference from the time of acceptance until such goods have been placed in the aircraft;

- (ii) that the shipments of goods are recorded; and
- (iii) that whenever the goods are received from an approved regulated agent such goods are delivered by an authorised employee of such regulated agent.

(2) An aircraft operator shall not accept any goods for transport by aircraft, unless the documentation for such goods is examined for inconsistencies and is accompanied by documentation stating that the goods screened do not contain any prohibited items.

(3) An aircraft operator shall not accept any goods from a regulated agent for transport by aircraft, unless initially and within the preceding twelve (12) months prior to accepting the goods, the aircraft operator—

- (a) has inspected the facilities and security procedures of such regulated agent;
- (b) has issued a letter to the regulated agent either accepting or renewing its acceptance as a regulated agent for the purposes of the transport of goods through the aircraft operator; and
- (c) assures the security of the goods in accordance with the procedures approved by the aircraft operator.

(4) An aircraft operator shall require an approved regulated agent to comply with the Technical Instructions.

(5) An aircraft operator shall submit to the Co-ordinator a report of any incident where an airway bill or equivalent document does not provide an accurate record of the goods being offered for air transport, or where other anomalies, inconsistencies, or suspicious conditions exist relating to a particular shipment.

(6) An aircraft operator, except as provided in the Technical Instructions, shall not place in an aircraft any goods that are not acceptable.

(7) An aircraft operator shall maintain a current list of its approved regulated agents and which contains a record of the requirements carried out under sub-regulation (3) (a) to (c) and make such list available to the Co-ordinator and the Authority upon request.

(8) An aircraft operator shall preserve for not less than one (1) year any record of acceptance checklists and inspections carried out under this regulation and make such records available to the Co-ordinator and the Authority upon request.

67. Screening of goods offered for transport by regulated agent.—(1) An aircraft operator may screen any goods or any package or container having goods offered for transport by air by a regulated agent.

(2) Where an inspection is conducted pursuant to sub-regulation (1), a regulated agent or a representative of the regulated agent may observe the inspection.

(3) In the absence of a regulated agent or a representative of a regulated agent, an aircraft operator may use such force as is necessary to access the contents of any package or container containing goods offered for transport by air by such regulated agent, representative of a regulated agent or aircraft operator.

(4) Where an inspection is conducted by an aircraft operator pursuant to sub-regulation (1), the package, container or goods shall remain in possession of the aircraft operator until after the inspection is complete.

(5) Where an inspection of goods under this regulation provides evidence of a breach of this Part, the national aircraft operator shall maintain possession of the goods offered for air transport by a regulated agent and the airway bill and inform the Co-ordinator in the prescribed form.

PART VII

CATERING OPERATOR SECURITY

68. Responsibilities of a catering operator.—(1) A catering operator, prior to accepting raw materials and equipment for preparation as catering supplies for transport by air, shall—

- (a) verify and register the name and address of each supplier of such raw materials and equipment;
- (b) verify the credentials of the person who delivers the raw materials and equipment as an agent of the supplier of such raw materials and equipment;
- (c) ensure on the basis of security screening that such raw materials and equipment do not contain any prohibited items;
- (d) ensure the safeguarding of such raw materials and equipment from unauthorised interference after acceptance;
- (e) ensure the raw materials and equipment are received by staff who are properly recruited and trained; and

(f) designate a person to implement and supervise the screening process.

(2) A catering operator, before tendering catering stores and supplies to an aircraft operator for transport by air, shall—

(a) ensure that all catering stores and supplies are not tendered for transport by air unless they have been subjected to screening; and

(b) ensure that each shipment of catering stores and supplies is accompanied by documentation stating that the catering stores and supplies have been screened and do not contain any prohibited items.

(3) An approved catering operator who offers catering stores and supplies to an aircraft operator for transport by aircraft shall produce and make available to the aircraft operator and the Co-ordinator, upon request, shipping documents, records of raw materials and equipment accepted, and catering stores and supplies offered for air transport, employee training records and other accountable catering documents.

69. Responsibilities of the aircraft operator receiving goods from a catering operator.—(1) An aircraft operator accepting catering stores and supplies for transport on its aircraft—

(a) may conduct screening of such shipments of catering stores and supplies; and

(b) shall ensure—

(i) that the catering stores and supplies are secured and have not been tampered with prior to acceptance;

(ii) the safeguarding of such catering supplies and stores against unlawful interference or unauthorised access, until such catering supplies and stores have been placed in the aircraft;

(iii) that the shipments of catering supplies and stores are recorded; and

(iv) that whenever the catering supplies and stores are received, such catering supplies and stores are delivered by an authorised employee of the catering operator.

(2) An aircraft operator shall not accept any catering supplies and stores for transport by aircraft, unless the documentation for such catering supplies and stores

is examined for inconsistencies and is accompanied by a valid security declaration stating that the supplies and stores have been screened by the catering operator and do not contain prohibited items.

(3) An aircraft operator shall not accept any catering supplies and stores from a catering operator for transport by aircraft unless initially and within the preceding twelve (12) months prior to accepting the catering supplies and stores, the aircraft operator—

- (a) has inspected the facilities and security procedures of such catering operator;
- (b) has issued a letter to the catering operator either accepting or renewing its acceptance as a catering operator for the purposes of the transport of catering supplies and stores through the aircraft operator; and
- (c) assures the security of the catering supplies and stores in accordance with the procedures approved by the aircraft operator.

(4) An aircraft operator shall require and ensure that its approved catering operator complies with the Technical Instructions.

(5) An aircraft operator shall submit to the Co-ordinator a report of any incident where a catering or equivalent document did not provide an accurate record of the catering supplies and stores being offered for air transport, or where other anomalies, inconsistencies, or suspicious conditions exist relating to particular supplies or stores.

(6) An aircraft operator, except as provided in the Technical Instructions, shall not place in an aircraft any catering supplies and stores that are not acceptable.

(7) An aircraft operator shall maintain a current list of its approved catering operator which contains a record of the requirements carried out under sub-regulation (3) (a) to (c) and make such list available to the Co-ordinator and the Authority, upon request.

(8) An aircraft operator shall preserve, for not less than one (1) year, any record of acceptance checklists and inspections carried out under this Part and make such records available to the Co-ordinator and the Authority upon request.

70. Screening of catering supplies and stores.—(1) An aircraft operator may screen any catering supplies and stores or any package, or container having catering supplies and stores offered for transport by air by an approved catering operator.

(2) Where screening is conducted pursuant to sub-regulation (1), a catering operator or a representative of the catering operator may observe the screening.

(3) In the absence of a catering operator or a representative of a catering operator, an aircraft operator may use such force as is necessary to access the contents of any package or container containing catering supplies and stores offered for transport by air by such catering operator, or representative of a catering operator.

(4) Where screening is conducted by an aircraft operator pursuant to sub-regulation (3), the package, container or catering supplies and stores shall remain in the possession of the aircraft operator until after the screening is complete.

(5) Where screening of catering supplies and stores under this regulation provides evidence of a breach of this Part, the aircraft operator shall maintain possession of the catering supplies and stores offered for air transport by a catering operator and inform the Co-ordinator in the prescribed form.

PART VIII

SCREENING STANDARDS, EQUIPMENT AND SECURITY CONTROLS

71. Aviation security instructor.—(1) Aviation security instructors shall be trained and certified by the Authority in accordance with the National Civil Aviation Security Training Programme.

(2) Prior to being authorised to provide aviation security instruction, an aviation security instructor shall first obtain a certificate from the Authority as evidence of having acquired the necessary knowledge and competencies.

(3) A person shall not engage in any programme of aviation security training on behalf of a holder of an approved security programme issued pursuant to these Regulations, unless that person—

- (a) is the holder of a valid aviation security instructor certificate issued by the Authority pursuant to these Regulations; and
- (b) the conditions subject to which the certificate was issued are complied with.

(4) A person intending to engage, in any programme of aviation security training on behalf of a holder of an approved security programme issued pursuant to these Regulations may apply to the Authority for an aviation security instructor certificate.

(5) For a person to be deemed by the Authority as a suitable candidate to apply for an aviation security instructor certificate, that person shall possess—

- (a) extensive knowledge of and experience in aviation security operations; or
- (b) knowledge in one or more of the following areas—
 - (i) international, regional and national aviation security regulations;
 - (ii) security systems and access control;
 - (iii) ground and in-flight security;
 - (iv) pre-boarding screening;
 - (v) baggage and cargo security;
 - (vi) aircraft security and searches;
 - (vii) restricted articles and prohibited items;
 - (viii) cyber security;
 - (ix) emergency procedures;
 - (x) an overview of terrorism; and
 - (xi) other areas and measures to enhance security awareness.

(6) An aviation security instructor certificate shall—

- (a) be in such form;
- (b) be subject to such conditions and limitations;
- (c) and contain such particulars as may be determined from time to time by the Authority by Implementing Standards.

(7) An Aviation Security Instructor who has been certified by the Authority shall undergo recurrent and recertification aviation security training in accordance with the National Civil Aviation Security Training Programme.

(8) An aviation security instructor certificate may be suspended or cancelled pursuant to the provisions of Part VIII of the Act.

72. Certification of Aviation Security Officer or Screening Officer.—(1) A person shall not perform screening operations or supervise persons performing screening operations pursuant to an approved Security Programme, unless that person is the holder of an aviation screener certificate issued by the Co-ordinator, subject to the approval of the ECCAA.

(2) An aviation screener certificate shall be issued subject to such conditions as outlined in the National Civil Aviation Security Training Programme.

(3) Notwithstanding the provisions of sub-regulation (1), a person may perform screening operations during the on-the-job portion of training provided that the person is closely supervised by the holder of an aviation screener certificate and does not make any independent screening decisions.

(4) An aviation security officer or aviation security screener who has been certified by the Authority shall be required to complete recurrent and recertification aviation security training in accordance with the National Civil Aviation Security Training Programme.

(5) A person shall not perform a screening operation after that person has failed an operational test related to that operation, until such person has successfully completed the remedial training specified in the National Civil Aviation Security Training Programme and has passed a re-test related to that operation.

(6) The Co-ordinator, with the approval of the ECCAA, may suspend, cancel or refuse to renew an aviation screener certificate—

- (a) if the holder of an aviation screener certificate has contravened any provision of the Act, these Regulations or the national programme;
- (b) if the Co-ordinator believes that there is an immediate threat to aviation safety exists or is likely to occur as a result of an act or thing having been or proposed to be done under the authority of the certificate; or

- (c) if the holder of the certificate is incompetent or ceases to have the qualification necessary for the issue of the certificate or has failed to comply with the conditions for the issue of the certificate.

73. Training for Aviation Security Officer and Aviation Security Screener.—(1) Training requirements for Aviation Security Officers and Aviation Security Screeners shall be prescribed in the National Civil Aviation Security Training Programme and shall ensure that personnel performing screening operations are competent in—

- (a) maintaining the integrity of restricted areas;
- (b) operating screening equipment;
- (c) applying appropriate methods and techniques for screening persons, baggage, and other goods; and
- (d) responding to the detection or surrender of weapons and prohibited items.

(2) The Co-ordinator shall ensure that suitably qualified persons conduct such examinations or assessments.

(3) Employment records including training records, competency testing and performance appraisals shall be kept and maintained, and shall be readily available for inspection by the Coordinator and the Authority upon request.

74. Approved training programme. An applicant seeking approval of a security programme pursuant to Part III, and who intends to hire, contract, or otherwise engage persons to perform screening operations, shall submit a training programme to the Authority for approval, in accordance with regulation 13 (7), (8) and (9), regulation 14 (3) and (4) and regulation 15 under Part III.

75. Qualifications of screening personnel. The qualifications of screening personnel, including basic aptitudes and physical abilities, shall be set out in the National Civil Aviation Security Training Programme.

76. Internal quality control of screening functions.—(1) The holder of an approved security programme shall conduct annual evaluation of each person assigned screening duties to determine whether that person—

- (a) has not suffered a significant diminution of any physical ability required to perform a screening function since the last evaluation of those abilities;

- (b) has a satisfactory record of performance and attention to duty;
- (c) demonstrates the current knowledge and skills necessary to courteously, vigilantly, and effectively perform screening functions; and
- (d) has not been determined to pose a risk to security as based on the results of any background check.

(2) A person who does not satisfy the requirements of sub-regulation (1) shall not perform screening functions.

(3) At locations outside the participating States, where the aircraft operator has operational control over a screening function, it may use aviation security screeners who do not hold an aviation security certificate issued pursuant to these Regulations, provided that the persons performing screening on the aircraft operator's behalf meet the minimum standards for the certification of screeners prescribed by that State.

(4) An aircraft operator shall ensure in locations outside the participating States that at least one of his or her representatives who has the ability to functionally read and speak the English Language is present while the passengers of the aircraft operator are undergoing security processing.

77 Security controls other than screening.—(1) The holder of a security programme approved pursuant to these Regulations shall ensure that a person authorised to perform and performing a security related function other than screening on his or her behalf has knowledge of—

- (a) the provisions of these Regulations and applicable security directives;
- (b) elements of the approved security programme required for the performance of his or her functions; and
- (c) has received training according to the standards contained in the National Civil Aviation Security Training Programme.

(2) The requirements referred to in sub-regulation (1) shall apply to all security-related functions performed for the holder of a security programme or whether by its employee or an employee of a contractor.

78. Use of Security Equipment.—(1) A holder of an approved Security Programme or person authorised to conduct screening on behalf of the holder, shall not use any security equipment within the State of Grenada to inspect carry-on or checked baggage, unless specifically authorised under an approved aircraft operator security programme, or use such equipment contrary to its approved Security Programme.

(2) A holder of an approved Security Programme may be authorised by the ECCAA to use security equipment systems for inspecting carry-on or checked baggage under an approved security programme where it shows that—

- (a) its screening equipment complies with the standards for such systems designed primarily for the inspection of cargo, carry-on and hold baggage and meets the performance requirements set out in the National Civil Aviation Security Programme;
- (b) a programme for initial and recurrent training of operators of the system is established, which includes training in radiation safety, the efficient use of security equipment systems, and the identification of weapons and other dangerous articles; and
- (c) the system meets the imaging requirements described in the approved aircraft operator security programme in accordance with the combined test requirements set out in the National Civil Aviation Security Programme.

79. Equipment, research and development.—(1) The Authority shall continuously promote research and development of new security equipment, processes and procedures which will better achieve the objectives of the National Civil Aviation Security Programme and co-operate with other States in this matter.

(2) Where the Authority has recommended the adoption of new security equipment, processes and procedures in Grenada, the Authority shall refer such recommendations to the Minister for consideration and revision of the National Civil Aviation Security Programme, training and quality control standards, as necessary.

(3) A holder of an approved security programme shall not implement new security equipment, processes and procedures without the prior written approval of the Authority.

80. Prohibited items list.—(1) The Authority shall, from time to time, publish a list of items which shall never be carried in the cabin of an aircraft.

(2) The Co-ordinator shall ensure that the list of prohibited items is transmitted to all holders of security programmes in Grenada.

81. Exemption from screening.—(1) The Minister may establish a list of persons or of categories of persons who are to be exempted from screening.

(2) The Co-ordinator shall transmit this list to the aerodrome operators and aircraft operators in Grenada.

(3) The Minister may direct that persons on the list created pursuant to sub-regulation (1) above are to be screened, if he or she determines that there is an increased threat to the civil aviation in Grenada.

82. Screening of diplomats and their baggage.—(1) Subject to the provisions of the Vienna Convention on Diplomatic Relations, diplomats and other privileged persons and their baggage, except for diplomatic bags, shall be subject to screening.

(2) Under normal conditions, diplomatic bags bearing visible external insignia of a State shall not be screened provided that they are sealed and the individual transporting the pouch produces appropriate diplomatic identification and official authorisation from the Embassy, Consulate, Mission, International Organisation, or Legation tendering the diplomatic bag for transport.

(3) The Co-ordinator, in consultation with the Minister, may direct that persons on the list created pursuant to sub-regulation (1) are to be screened, if he or she determines that there is an increased threat to civil aviation in Grenada.

PART IX

MANAGEMENT OF RESPONSE TO ACTS OF UNLAWFUL INTERFERENCE

83. Aircraft operator contingency plans. An aircraft operator shall establish contingency plans in accordance with the National Civil Aviation Security Programme to co-ordinate the response to threats or acts of unlawful interference of an aircraft whether at an aerodrome or in flight.

84. Aerodrome operator contingency plans. An aerodrome operator shall establish contingency plans in accordance with the National Civil Aviation Security Programme to co-ordinate the response to threats or acts of unlawful interference occurring at an aerodrome or in its vicinity.

85. Approval of contingency plans. Contingency plans shall be submitted for review and approval in keeping with regulation 13 (7), (8), and (9) and regulation 14 (3) and (4).

86. Testing of contingency plans.—(1) The Co-ordinator shall arrange for tests of airport operator contingency plans which tests shall take place at regular intervals not exceeding two years.

(2) The tests shall be evaluated by the Authority who shall submit a written report to the Co-ordinator within thirty (30) days after the conclusion of the test.

87. Response to security incidents during screening.—(1) A person authorised to conduct screening activities shall immediately notify the Aerodrome Security Manager or his or her designate, if any of the following is detected at a restricted area access point or any other part of an aerodrome where screening of persons, carry-on baggage or other things in his or her possession or control, or vehicles under his or her care and control, is conducted—

- (a) a weapon, other than a firearm allowed pursuant to the powers of a police officer, escort officer or in-flight security officer to carry a firearm while on duty as prescribed in these Regulations; or
- (b) an explosive substance, other than an authorised explosive substance or incendiary device allowed by the aerodrome operator and the aircraft operator.

(2) A person authorised to conduct screening activities shall immediately notify the appropriate aircraft operator, the aerodrome operator, the Police Force and the Co-ordinator when any of the following is detected in checked baggage—

- (a) a loaded firearm;
- (b) an explosive substance or ammunition; or
- (c) an incendiary device or the components.

88. Mandatory reporting of security incidents.—(1) An aerodrome operator shall immediately notify the Co-ordinator, when the following incidents occur, namely—

- (a) the discovery at the aerodrome of a weapon, other than a weapon or firearm allowed pursuant to the power of a police officer to carry a firearm while on duty;
- (b) the discovery at the aerodrome of an explosive substance or an incendiary device, other than an explosive substance or incendiary allowed by the aerodrome operator or the aircraft operator;
- (c) an explosion at the aerodrome, unless the explosion is known to be
- (d) the result of an accident, or an authorised excavation, demolition, or construction, or the authorised use of fireworks displays;

-
- (e) a specific threat against the aerodrome; or
- (f) an aviation security incident that involves a member of the Police Force anywhere at the aerodrome.
- (2) An aircraft operator shall immediately notify the Co-ordinator, when there is—
- (a) a hijacking or attempted hijacking of an aircraft or other act of unlawful interference;
- (b) the discovery onboard an aircraft of a weapon;
- (c) the discovery onboard an aircraft of an explosive substance or an
- (d) incendiary device, other than an authorised explosive substance or
- (e) incendiary device allowed on board the aircraft by the aircraft operator;
- (f) an explosion on an aircraft; or
- (g) a specific threat against an aircraft, a flight or a facility or part of an aerodrome of which it becomes aware.
- (3) An aircraft operator shall immediately notify the aerodrome operator when a weapon, other than a firearm allowed pursuant to the power of a police officer to carry a firearm, is detected in any part of the aerodrome under its control.
- (4) The holder of any approved security programme shall inform the Co-ordinator of any act of unlawful interference or any instance of non-compliance with the approved security programme which is likely to endanger the public.
- (5) The Co-ordinator shall, as soon as is reasonably practicable, report any incident described in sub-regulation (4) to the Authority.

PART X

MISCELLANEOUS

89. Security Risk Assessment.—(1) The State of Grenada shall follow the methodology for the carrying out of security risk assessments by the Co-ordinator and law enforcement agencies in Grenada using the methodology set out in the National Civil Aviation Security Programme.

-
- (2) A security risk assessment referred to in sub-regulation (1) shall—
- (a) identify all potential security threats, vulnerabilities and exposures;
 - (b) measure the degree of actual security risks applicable to each aspect of the proposed operation; and
 - (c) make recommendations as to the measures to be employed to reduce such risks.

90. Domestic operations.—(1) Except as otherwise provided, these Regulations and the National Civil Aviation Security Programme made pursuant to these Regulations shall apply to domestic aerodromes, provided that an aerodrome operator shall notify the Co-ordinator in writing at least ninety (90) days before the intended commencement of operations.

(2) The Co-ordinator shall conduct a security risk assessment of the proposed operation to be undertaken in conjunction with all relevant law enforcement agencies in Grenada to determine reasonable measures which are necessary to ensure aviation security.

(3) A report of the risk assessment with recommendations shall be forwarded to the Authority, which shall, pursuant to section 55 of the Act, exempt the proposed operation from such provisions, these Regulations, the National Civil Aviation Security Programme or the Security Directives as are reasonably practicable to ensure aviation security.

(4) The Authority shall forthwith inform the Minister of any exemption granted under sub-regulation (1).

91. Security directives.—(1) The Director-General may issue security directives, where necessary.

(2) An aerodrome operator, aircraft operator, a regulated agent, air navigation service provider and catering operator shall comply with a security directive issued pursuant to sub-regulation (1) within the time specified in the directive.

92. Sensitive Aviation Security Information.—(1) Only persons who have a need to know of sensitive aviation security information, in order to carry out the functions of their employment, may have access to sensitive aviation security information, and only to the extent necessary to carry out such functions.

(2) A person may not disclose sensitive aviation security information to persons who do not have a need to know of the information.

(3) Each aerodrome operator, aircraft operator, regulated agent, air navigation service provider and catering operator shall develop procedures included in its Security Programme for the marking, handling and protection of sensitive aviation security information to safeguard such information from unauthorised disclosure.

(4) All employees, contractors, and agents of the aerodrome operator, aircraft operator, regulated agent, and catering operator shall be trained in the procedures for marking, handling and protecting sensitive aviation security information.

(5) Sensitive aviation security information includes—

- (a) an approved national programme and any comments, instructions or implementing guidance pertaining thereto;
- (b) an approved security programme and any comments, instructions or implementing guidance pertaining thereto;
- (c) security directives, information circulars and any comments, instructions or implementing guidance pertaining thereto;
- (d) any profile used in any security screening process, including for persons, baggage or cargo;
- (e) any security contingency plan or information and any comments, instructions, or implementing guidance pertaining thereto;
- (f) technical specifications of any device used for the detection of any deadly or dangerous weapon, explosive, incendiary, or destructive substance;
- (g) a description of, or technical specifications of, objects used to test screening equipment;
- (h) communication procedures and technical specifications of any security communication equipment;
- (i) information concerning threats against civil aviation released by the Authority;

- (j) specific details of aviation security measures whether applied directly by the Authority or the holder of an approved security programme and includes information concerning specific numbers of aviation security officers and aviation security officers, deployments or missions, and the methods involved in such operations;
- (k) any draft, proposed or recommended change to the information and records identified in these Regulations;
- (l) any information contained in a national programme or a security programme;
- (m) any other information, the disclosure of which the Authority has prohibited; and
- (n) any information that the Director-General has determined may reveal a systemic vulnerability of the aviation system or a vulnerability of aviation facilities, to attack.

93. Confidential reporting of security information.—(1) The Co-ordinator shall establish a system designed to permit the reporting of breaches of these Regulations, threats or other information relevant to aviation security by members of the public including passengers, crew and ground personnel.

(2) The system shall be designed to permit reports to be submitted anonymously or to protect the identity of persons who submit such reports if their identity is known.

94. General security compliance.—(1) A person shall not tamper or interfere with, compromise, modify or attempt to circumvent, or cause a person to tamper or interfere with, compromise, modify or attempt to circumvent any security system, measure, or procedure established under these Regulations.

(2) A person shall not interfere with an aviation security officer or aviation screening officer in the performance of their duties.

(3) A person shall not enter or be present in a restricted area, air operations area, or sterile area without complying with the systems, measures, or procedures being applied to control access to, or presence or movement in such areas.

(4) A person, who has been issued an identification medium issued by an aerodrome operator or other appropriate authority which provides access to the restricted area or sterile area of an Aerodrome, shall not use such identification medium for any purpose other than to carry out the duties of his or her employment for which such person was issued the identification medium.

95. Cyber Security.—(1) The Coordinator shall, in accordance with the risk assessment carried out by the relevant national authorities, ensure that measures are developed in order to protect critical information technology and communication systems used for civil aviation purposes from acts of unlawful interference that may jeopardise the safety of civil aviation.

(2) The entities responsible for the implementation of various aspects of the National Civil Aviation Security Programme shall identify their critical information technology and communication systems, including threat and vulnerabilities and develop protective measures, including security by design, supply chain security, network separation, and remote access control, as appropriate.

PART XI

FACILITATION

96. Entering and departing aircraft. The appropriate authority shall coordinate with other relevant authorities in the application of control measures and procedures aimed at the efficient clearance of—

- (a) entering or departing aircraft; and
- (b) border controls for passengers and crew.

97. Travel document coordination. The Minister shall liaise with the competent authority responsible for the issuance of travel documents in accordance with the specifications of the International Civil Aviation Organization on the international standards for the travel documents.

98. Inspection of travel documents. The Minister shall ensure that—

- (a) aircraft operators conduct an evaluation of travel documents presented by passengers, in order to deter fraud and abuse; and

- (b) necessary precautions at the point of embarkation are carried out to ensure that persons are in possession of the documents prescribed by the competent authority and other relevant authorities of transit and destination for control purposes.

99. Entry procedures and responsibilities.—(1) The Minister shall, where applicable, liaise with the competent authority responsible for travel documents to ensure the seizure of—

- (a) fraudulent, falsified or counterfeit travel documents; and
- (b) travel documents of a person impersonating the rightful holder of the travel documents.

(2) The documents referred to under sub-regulation (1) shall be removed from circulation immediately and returned to the department of the State named as issuer or to the resident diplomatic mission of that State.

100. Advance passenger information. The Minister shall ensure that internationally recognised standards for the transmission of advance passenger information are adhered to.

101. Identification and entry of crew and other aircraft operator personnel. The Minister shall ensure that—

- (a) a crew member certificate is issued to a crew member after a background check has been carried out including—
 - (i) certification of the employment status of an applicant prior to issuance; and
 - (ii) the issuing personnel controls and accounts for blank card stock; and
- (b) adequate controls on the issuance of crew member certificates and other official crew identity documents are put in place to prevent fraud.

102. Entry and departure of cargo. The Minister shall coordinate with the relevant authority to ensure—

- (a) the use of risk management to determine the extent of examination of goods;

-
- (b) that programmes for authorised economic operators include measures that enhance security to create an environment for facilitative customs control measures;
 - (c) the establishment of agreements or arrangements for the mutual recognition of respective authorised economic operator or equivalent programmes with other States;
 - (d) the use of the available advance cargo information in subsequent import, export or transit customs procedures for the release and clearance of the goods;
 - (e) the introduction of arrangements to enable all parties involved in air cargo operations to submit all the information required by a competent authority, in connection with the arrival, stay and departure of an aircraft and air cargo, to a single window;
 - (f) that all participants in the transport, handling and clearance of air cargo, simplify relevant procedures and documents and cooperate or participate directly in the development of electronic air cargo community systems using internationally agreed standards to enhance the exchange of information relating to traffic and assuring interoperability between the systems;
 - (g) the establishment of special procedures for the expedited release of goods on arrival or departure of authorised persons meeting specified criteria, which may include an appropriate record of compliance with official requirements and a satisfactory system for managing their commercial records; and
 - (h) that goods not-afforded the special procedures are released or cleared promptly on arrival, subject to compliance with customs and other requirements.

103. Inadmissible persons. Where a competent authority has reason to believe that an inadmissible person might offer resistance to his or her removal, the competent authority shall inform the aircraft operator concerned in advance of the scheduled departure so that the aircraft operator can take precautions to ensure the safety of the flight.

104. Deportees.—(1) Where a competent authority removes a deportee from its territory, the competent authority shall assume all the obligations, responsibilities and costs associated with the removal.

(2) A competent authority shall, when making arrangements with an aircraft operator for the removal of a deportee, make available the following information within 24 hours before the scheduled time of departure of the flight—

- (a) a copy of the deportation order where applicable;
- (b) a risk assessment by the State or any other pertinent information that would help the aircraft operator assess the risk to the safety of the flight; and
- (c) the names and nationalities of any person escorting the deportee.

105. National Air Transport Facilitation Programme.—(1) The Co-ordinator shall, with the approval of the Minister, implement and maintain a National Air Transport Facilitation Programme.

(2) The National Air Transport Facilitation Programme shall be binding on—

- (a) any official in the service of Grenada, any security officer or aviation security officer and any other person involved in the application of such security; and
- (b) any other person, including a member of the public where the requirements of the National Civil Aviation Programme have been brought to the attention of that person by the Minister by such means as the Minister considers necessary.

106. Composition of the National Air Transport Facilitation Committee.—(1) There shall be established a National Air Transport Facilitation Committee for the purposes of co-ordinating facilitation activities between the departments, agencies and other organisations of Grenada concerned with, or responsible for, various aspects of civil aviation operations.

(2) The National Air Transport Facilitation Committee shall be composed of senior officials representing the main interests involved in the various aspects of facilitation.

(3) The following persons from the entities specified below shall be members of the National Air Transport Facilitation Committee—

- (a) the Minister responsible for Civil Aviation (as Chairman);

-
- (b) the Permanent Secretary of Civil Aviation (as Deputy Chairman);
 - (c) the Co-ordinator for National Civil Aviation Security;
 - (d) the Chief Officer responsible for plant health, veterinary services and fisheries;
 - (e) the Comptroller of Customs;
 - (f) the Chief Immigration Officer;
 - (g) the Commissioner of Police;
 - (h) the ministry responsible for foreign affairs or protocol division;
 - (i) the Chief Officer responsible for health;
 - (j) the Chief responsible for tourism;
 - (k) the President of the aircraft operators;
 - (l) the Grenada Airports Authority; and
 - (m) the Security Manager of Airport Serving International Civil Aviation.

107. Functions of the National Air Transport Facilitation Committee. The functions of the National Air Transport Facilitation Committee shall include—

- (a) establishing a National Air Transport Facilitation Programme in compliance with the Chicago Convention and Annex 9 – Facilitation, which shall—
 - (i) set out the Government’s policy on the facilitation of civil aviation within Grenada and for Grenada-registered aircraft operating overseas; and
 - (ii) provide, through the establishment of standards and guidelines, measures to enhance efficiency while supporting aviation security objectives;
- (b) overseeing the implementation of the National Air Transport Facilitation Programme;

-
- (c) ensuring coordination among relevant ministries and agencies to remove unnecessary obstacles and delays, and to improve the efficiency and service levels of civil air transport;
 - (d) promoting best practices in the facilitation of civil air transport, including inter-agency coordination with immigration, customs, and public health authorities, and the handling of persons with disabilities;
 - (e) advising the Air Transport Licensing Board and the Minister, as necessary, on amendments to Grenada's legislation to maintain compliance with the Chicago Convention or any other applicable international agreement relating to the facilitation of civil air transport;
 - (f) considering recommendations made by airport facilitation committees established at international airports;
 - (g) facilitating and expediting the clearance of aircraft arriving in or overflying Grenada, and ensuring that passengers, crew, cargo, and mail are not subjected to unnecessary delays at points of entry or exit;
 - (h) reviewing, evaluating, and maintaining the effectiveness of facilitation programmes and procedures, and taking corrective action where necessary;
 - (i) keeping civil aviation operations in Grenada under continuous review and making adjustments to the Programme as required;
 - (j) coordinating with the National Civil Aviation Security Committee on matters relating to the security aspects of facilitation; and
 - (k) enhancing facilitation through cooperation with other States, particularly those with which bilateral air services agreements exist, in order to achieve uniform solutions to common challenges.

PART XII

OFFENCES AND PENALTIES

108. Offences committed at aerodromes.—(1) A person commits an offence in circumstances where that person commits any of the following acts at an aerodrome or its related facilities—

-
- (a) assault, intimidation or threat, whether physical or verbal, against an aviation security officer or authorised person if the act interferes with the performance of the duties of the aviation security officer or authorised person or lessens the ability of the aviation security officer or authorised person to perform those duties;
 - (b) refusal to follow a lawful instruction given by the airport operator or on behalf of the Authority by an aviation security officer or authorised person for the purpose of ensuring the safety at the airport or of any person or property at the airport or for the purpose of maintaining good order and discipline at the airport;
 - (c) an act of physical violence against an aviation security officer or authorised person on duty; and
 - (d) Intentionally causing damage to, or destruction of, property.

(2) An aerodrome operator who fails to notify the Co-ordinator of a threat under regulation 90 commits an offence.

109. Offences committed on board aircraft. A person commits an offence in circumstances where that person commits any of the following acts onboard an aircraft—

- (a) assault, intimidation or threat, whether physical or verbal, against a crew member if the act interferes with the performance of the duties of the crew member or lessens the ability of the crew member to perform his or her duties;
- (b) refusal to follow a lawful instruction given by the pilot-in-command or on behalf of the pilot-in-command by a crew member, for the purpose of ensuring the safety of the aircraft or of any person or property on board or for the purpose of maintaining good order and discipline on board;
- (c) assaults, intimidates or threatens another person, whether physically or verbally;
- (d) engages in an act of physical violence against a person, sexual assault;
- (e) unlawfully seizes an aircraft in flight or on the ground;
- (f) or uses an aircraft for the purpose of causing death, serious bodily injury, or serious damage to property or the environment.

110. Offence of non-compliance with Regulations.—(1) A person, who contravenes any of these Regulations, commits an offence and is liable and where no other penalty is provided for, on summary conviction to imprisonment for twelve (12) months or a fine not exceeding twenty thousand Eastern Caribbean Dollars (EC\$20,000) or both per offence.

(2) Where any of these Regulations is contravened, the Director-General may, if the Director-General thinks fit, provisionally and pending inquiry take action to enforce the Regulations that have been contravened, including—

- (a) the re-examination of the original certification basis or competence;
- (b) the imposition of monetary penalties for the contravention of Regulations;
- (c) the variation, suspension, cancellation or revocation of a civil aviation document or authorisation;
- (d) the disbarment of the offender from participating in any aviation security programme.

(3) Any holder of an approved security programme, who wilfully or intentionally or otherwise howsoever contravenes any of these Regulations, or who demonstrates an unwillingness or inability to adequately carry out the respective requirements of these Regulations or the holder's approved security programme, and whose continued operations are determined by the Authority as posing a threat to civil aviation security, shall be subject to the suspension, cancellation or revocation of the holder's security programme approval.

(4) The holder or any person having the possession or custody of any civil aviation document or authorisation, which has been varied, suspended, cancelled or revoked pursuant to these Regulations shall surrender it to the Director-General within the time specified by the Director-General.

(5) Where a person who is assigned responsibility for a specific function or task within the National Civil Aviation Security Programme fails to carry out that function or task to the standard specified in the National Civil Aviation Security Programme, the Authority shall recommend the disbarment of that person from any further participation in National Civil Aviation Security Programme.

110. Offences relating to documents and records.—(1) A person shall not—

-
- (a) use any certificate, authorisation, approval, or other document issued or required by or under these Regulations which has been forged, altered, revoked or suspended, or to which he or she is not entitled; or
- (b) lend any certificate, authorisation, approval, or other document issued or having effect or required by or under these Regulations to, or allow it to be used by, any other person; or
- (c) make any false representation for the purpose of procuring for himself or any other person the grant, issue, renewal or variation of any such certificate, authorisation, approval, or other document.
- (2) A person shall not intentionally—
- (a) damage, alter or render illegible any record; or
- (b) knowingly make, or procure or assist in the making of, any false entry in or material omission from a certificate, authorisation, approval, or other document issued or required by or under these Regulations; or
- (c) destroy a record during the period for which it is required under these Regulations to be preserved.
- (3) A person shall not issue or purport to issue any certificate, authorisation, approval, or other document for the purposes of these Regulations or any directions made thereunder, unless that person is authorised to do so under these Regulations.

112. Repeals. The Civil Aviation (Security) Regulations 2012, No. 22 of 2012 are hereby repealed.

SCHEDULE I

(regulation 10 (2))

NATIONAL CIVIL AVIATION SECURITY PROGRAMME (NCASP) MODEL

CONTENTS

Preface

I. Programme objective

II. Definitions**III. Legislation**

- A. International conventions
- B. National legislation

IV. Allocation of responsibilities

- A. Designated appropriate authority for aviation security
- B. Civil aviation authority (CAA), if different from section A
- C. Airport administration
- D. Air traffic services (ATS)
- E. Airport tenants
- F. Aircraft operators
- G. Policing authority
- H. Military
- I. Other agencies

V. Coordination and communications

- A. National Civil Aviation Security Committee (NCASC)
- B. Airport Security Committee (ASC)
- C. Communication and cooperation with other States
- D. Communication with ICAO
- E. News media communications

VI. Protection of airports, aircraft, and air navigation facilities

- A. Designation of security restricted areas
- B. Protection of security restricted areas
- C. Control of access – general requirements
- D. Control of access – persons
- E. Control of access – vehicles
- F. Protection of aircraft
- G. Navigational and other vital facilities
- H. Protection of critical systems and data against cyber-attacks

VII. Security control of persons and items being placed on board aircraft

- A. Screening of passengers and cabin baggage
- B. Transfer and transit passengers
- C. Aircraft crew, airport staff and other non-passengers
- D. Special screening procedures
- E. Authorized carriage of weapons
- F. Persons in custody and under administrative control
- G. Hold baggage
- H. Air cargo and mail
- I. Aircraft catering stores and supplies

VIII. Security equipment

- A. Procurement
- B. Calibration
- C. Operation and maintenance

IX. Personnel

- A. Selection criteria
- B. Training

X. Management of response to acts of unlawful interference

- A. General
- B. Responsibilities
- C. Initial action
- D. Command
- E. Control
- F. Provision of air navigation services
- G. Specialist support
- H. News media
- I. Reporting

XI. Quality control

XII. Adjustment of programme and contingency plans

- A. General
- B. Responsibilities

C. Incident review

XIII. Financing of security

XIV. Appendices

SCHEDULE II

(regulation 11 (3))

**NATIONAL CIVIL AVIATION SECURITY QUALITY CONTROL PROGRAMME
(NQCP) MODEL**

CHAPTER 1. Introduction

- 1.1. Objectives of the NQCP
- 1.2. Authority to develop, maintain and oversee the NQCP
- 1.3. Programme operational management
- 1.4. Programme distribution and disclose of quality control information
- 1.5. Handling of sensitive security information
- 1.6. Definitions
- 1.7. Legislative framework

CHAPTER 2. Organization

- 2.1. Responsibilities
 - 2.1.1 Appropriate Authority
 - 2.1.2. Other entities
- 2.2. Human and material resources

CHAPTER 3. Personnel

- 3.1. Selection and hiring criteria for national aviation security inspectors
- 3.2. Training of national aviation security inspectors

- 3.3. Qualifications for independent duty of national aviation security inspectors
- 3.4. Authority and responsibility of national aviation security inspectors
- 3.5. Code of Conduct of national aviation security inspectors

CHAPTER 4. Quality control activities

- 4.1. Planning and scheduling
- 4.2. Audits
- 4.3. Inspections
- 4.4. Tests
- 4.5. Investigations

CHAPTER 5. Reporting

- 5.1. Administrative reporting
 - 5.1.1. Annual schedule of activities
 - 5.1.2. Activity report submission
 - 5.1.2.1. Activity report approval process
 - 5.1.2.2. Retention and statistical analysis
- 5.2. Annual summary report

CHAPTER 6. Enforcement

- 6.1. Compliance/non-compliance
 - 6.1.1. Categories of compliance/non-compliance
- 6.2. Enforcement actions
 - 6.2.1. Corrective action plans and follow-up verification
 - 6.2.2. Administrative actions
 - 6.2.3. Civil penalty actions
 - 6.2.4. Criminal actions
- 6.3. Other enforcement actions
 - 6.3.1 Detention of an aircraft
 - 6.3.2 Recalling an aircraft

Appendices

APPENDIX 1. Templates and sample letters

APPENDIX 2. Airport security assessment

2.1 Airport audit/inspection

2.1.1 Preparation

2.1.2 Assessment of compliance with national requirements

- a) Airport security programme (ASP)
- b) Airport security committee
- c) Selection and recruitment
- d) Training of airport aviation security personnel
- e) Security restricted areas, including signs, barriers and access control systems
- f) Airport security identification permit system
- g) Vehicle permits
- h) Vehicles and supplies conveyed airside
- i) Movement of persons and vehicles
- j) Lock and key controls
- k) Emergency plans and procedures
- l) Explosive detection and disposal
- m) Construction plans
- n) Duty-free shops and other retailers
- o) Internal quality control measures

2.1.3 Conclusion of airport security audit/inspection

2.2 Airport security tests

2.2.1 Preparation

2.2.2 Types of security tests

2.2.3 Conclusion of airport security tests

2.3 Quality control activity forms, checklists and protocols for the conduct of airport security audits, inspections and tests.

APPENDIX 3. Aircraft operator security assessment

- 3.1 Aircraft operator audit/inspection
 - 3.1.1 Preparation
 - 3.1.2 Assessment of compliance with national requirements
 - a) Aircraft operator security programme (AOSP)
 - b) Selection and recruitment
 - c) Aviation security training
 - d) Aircraft security checks and/or searches
 - e) Protection of aircraft
 - f) Protection of flight crew compartment during flight
 - g) Passenger and baggage reconciliation
 - h) Transit stops – disembarking passengers
 - i) Persons in custody and under administrative control and disruptive passengers
 - j) Carriage of weapons in the cabin of the aircraft
 - k) Carriage of weapons in the hold of the aircraft
 - l) Travel documents
 - m) Advance passenger information system (APIS)
 - n) Catering and stores
 - o) Internal quality control activities
 - 3.1.3 Conclusion of aircraft operator audit/inspection
- 3.2 Aircraft operator security tests
 - 3.2.1 Preparation
 - 3.2.2 Types of security tests
 - 3.2.3 Conclusion of aircraft operator security tests
- 3.3 Quality control activity forms, checklists and protocols for the conduct of aircraft operator security audits, inspections and tests

APPENDIX 4. Cargo and mail security assessment

- 4.1 Cargo and/or mail audit/inspection
 - 4.1.1 Preparation
 - 4.1.2 Assessment of compliance with national requirements
 - a) Facilities security
 - b) Selection and recruitment

- c) Aviation security training
 - d) Security controls including screening
 - e) Protection of cargo and mail
 - f) Chain of custody
 - g) Oversight and compliance
- 4.1.3 Conclusion of cargo and/or mail audit/inspection
- 4.2 Cargo and/or mail security tests
- 4.2.1 Preparation
 - 4.2.2 Types of security tests
 - 4.2.3 Conclusion of cargo and/or mail security tests
- 4.3 Quality control activity forms, checklists and protocols for the conduct of cargo and mail security audits, inspections and tests

APPENDIX 5. Security screening assessment

- 5.1 Security screening audit/inspection
- 5.1.1 Preparation
 - 5.1.2 Assessment of compliance – security screening audit/inspection
 - a) Training and certification of screening personnel
 - b) Security screening equipment
 - c) Screening of originating passengers and cabin baggage
 - d) Screening of transfer passengers and cabin baggage
 - e) Screening of originating hold baggage
 - f) Screening of transfer hold baggage
 - g) Protection of screened passengers and their cabin baggage
 - h) Protection of screened hold baggage or accepted into the care of the aircraft operator
 - i) Protection of transit passengers and their cabin baggage operations and airport of transit
 - j) Screening and security controls of persons other than passengers along with items carried
 - 5.1.3 Conclusion of security screening audit/inspection
- 5.2 Security screening tests
- 5.2.1 Preparation
 - 5.2.2 Types of security tests
 - 5.2.3 Conclusion of security screening tests

- 5.3 Quality control activity forms, checklists and protocols for the conduct of security screening audits, inspections and tests
- 5.4 List of approved test devices
- 5.5 Configuration of SCP
- 5.6 Content of baggage used in cabin and hold baggage security tests
- 5.7 Record of infiltration test device use
- 5.8 Hold baggage screening facility configurations and systems

APPENDIX 6. Aircraft caterers and cleaning companies security assessment

- 6.1 Aircraft caterers and cleaning companies audit/inspection
 - 6.1.1 Preparation
 - 6.1.2 Assessment of compliance with national requirements
 - a) Aircraft caterers and cleaning companies security measures /programme
 - b) Selection and recruitment
 - c) Aviation security training
 - d) Security of premises
 - e) Preparation and storage
 - f) Checking and sealing of vehicles, catering carts and containers
 - g) Delivery of stores and supplies
 - h) Receipt of stores and supplies
 - i) Goods to be sold on board an aircraft
 - j) Internal quality control activities
 - 6.1.3 Conclusion of aircraft caterers and/or cleaning companies security audit/inspection
- 6.2 Aircraft caterers and/or cleaning companies security tests
 - 6.2.1 Preparation
 - 6.2.2 Types of security tests
 - 6.2.3 Conclusion of aircraft caterers and/or cleaning companies security tests

- 6.3 Quality control activity forms, checklists and protocols for the conduct of aircraft caterers, and cleaning companies, security audits, inspections and tests

APPENDIX 7. Duty-free shops and other retailers/tenants security assessment

- 7.1 Duty-free shops and other retailers/tenants audit/inspection
- 7.1.1 Preparation
- 7.1.2 Assessment of compliance with national requirements
- a) Duty-free shops and other retailers/tenants
 - b) Other airport tenants
 - c) Selection and recruitment
 - d) Aviation security training
- 7.1.3 Conclusion of duty-free shops,, retailers, and/or tenants, audit/inspection
- 7.2 Duty-free shops and/or other retailers/tenants security tests
- 7.2.1 Preparation
- 7.2.2 Types of security tests
- 7.2.3 Conclusion of duty-free shops and/or other retailers/tenants security tests
- 7.3 Quality control activity forms, checklists and protocols for the conduct of duty-free shops, and other retailers,/tenants, security audits, inspections and tests

SCHEDULE III

(regulation 12 (4))

**NATIONAL CIVIL AVIATION SECURITY
TRAINING PROGRAMME (NCASTP) MODEL**

**Chapter 1. National Civil Aviation Security Training Programme
(NCASTP)**

- 1.1 Objective
- 1.2 Scope
- 1.3 Legal basis
- 1.4 Definitions
- 1.5 Organization and responsibilities
- 1.6 Target population

Chapter 2. Security staff

- 2.1 Recruitment and selection
- 2.2 Training requirements
- 2.3 Qualifications of screeners
- 2.4 Qualifications of national auditors and inspectors
- 2.4 Qualifications of managers
- 2.5 Qualifications of instructors
- 2.6 Career development

Chapter 3. Non-security staff

- 3.1 Recruitment and selection
- 3.2 Training requirements

Chapter 4. Certification

- 4.1 Screeners
 - a) introduction
 - b) initial training
 - c) exams (including retaking exams)
 - d) recurrent training
 - e) certification and re-certification
- 4.2 Instructors
- 4.3 National auditors and inspectors
- 4.4 Managers
- 4.5 Others

Chapter 5. Training modules and lesson plans

- 5.1 Security awareness
- 5.2 Cybersecurity awareness
- 5.3 Airport and aircraft operators and their agents
- 5.4 Passenger and cabin baggage screening
- 5.5 Hold baggage screening – conventional and/or explosives detection and/or explosive device detection
- 5.6 Hold baggage security
- 5.7 Aircraft operator security
- 5.8 Catering security
- 5.9 Cargo and mail security
- 5.10 Cleaning company security
- 5.11 Security management
- 5.12 Air traffic control security
- 5.13 National auditors and inspectors
- 5.14 National aviation security instructors
- 5.15 Contingency planning and crisis management

Chapter 6. Training records

Appendices

Made by the Director General this 11th day of June, 2026.

MR. ANTHONY WHITTIER
*Director General,
Eastern Caribbean Civil Aviation Authority.*
